

CHANGE THE WORLD, START WITH ENERGY STAR

How to place your logo on a PDF.

Step One: Launch Acrobat Professional (not Acrobat Reader). Go to: File > Open and open the poster.

Step Two: Go to: Tools > Advanced Editing > TouchUp Object Tool.

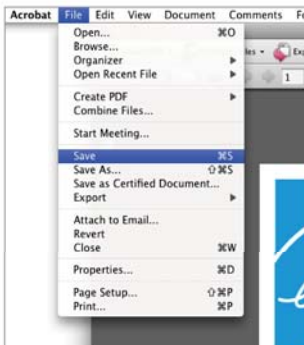

Step Three: Right click your mouse anywhere on the poster PDF. Then Go to: Place Image. Select the version of your company logo to be placed. Make sure it is the correct size to fit a 24" x 36" poster.

Step Four: Place your logo in the correct location. Remember, the placed logo must be a hi-resolution JPEG sized appropriately. Logos cannot be resized when placed on the poster.

Step Five: Go to: File > Save.

Step Six: Save your edited custom poster. You can deliver the file to a professional vendor or produce it in house if you have large-format printing capabilities.
