Edit Energy Use: Electricity

Meter Information [Edit](#)

Fuel Type: Electricity (kBtu (thousand Btu))

Space(s): Entire Facility

Please enter the energy use for each meter entry below. Portfolio Manager requires that entries are for consecutive time periods; only one day of overlap or one day of gap can exist between meter entries to be eligible to generate an Energy Performance Rating.

If you are accounting for "sold" energy, indicate this by entering a negative energy use for the appropriate time period.

Add Meter Entries: Electricity

Please select the number of meter entries to add and enter the start date for these meter entries.

REQUIRED

Select Number of Meter Entries to be added and Start Date for first entry:

Meter Entries to Add	*Start Date (MM/DD/YYYY)	Energy Type	Units
12 Month(s)	04/01/2004	Electricity	kBtu (thousand Btu)

- 12
- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9
- 10
- 11

Select the number of months you wish to add to that meter. The "Start Date" will default to continue where you left off. Change it if needed (such as if you are adding older data). Then click "CONTINUE" and enter your data, and save it.
