LEARN MORE AT
energystar.gov

ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit www.energystar.gov.

Dear ENERGY STAR partner,

Key training resources have been updated to reflect the policy changes contained in Revision 04 to the ENERGY STAR for Homes Version 3 guidelines. These resources are all available at www.energystar.gov/newhomestraining under the “Additional Training Resources” heading, or directly from http://www.energystar.gov/index.cfm?c=bldrs_lenders_raters.nh_v2_v3_training_resources.

Specifically, we have updated the Version 2.5 Training slide deck and have posted guidance on outdoor HVAC design temperatures and the Revision 04 Training slide deck.

Please be sure to review the Revision 04 Tracking Document or Revision 04 Highlights document, available from the [Policy Changes and Clarifications](#) page, or the Revision 04 training slide deck, accessible through www.energystar.gov/newhomestraining if you have not done so already. You are also encouraged to participate in the free webinars designed to help partners successfully transition to the Version 3 guidelines. You can view the calendar of webinars and register at www.energystar.gov/newhomeswebinars. Please contact us at energystarhomes@energystar.gov if you have any questions. Thank you for your work promoting ENERGY STAR.
