

ENERGY STAR[®] SUMMARY OF WATER HEATER PROGRAMS

The simple
choice for
energy
efficiency.

SEPTEMBER 2016 UPDATE

The U.S. Environmental Protection Agency (EPA) is pleased to provide the **2016 ENERGY STAR[®] Summary of Water Heater Programs** (Summary). The Summary provides an overview of a variety of programs offered by utilities and other energy efficiency program sponsors in the United States to promote ENERGY STAR certified commercial and residential water heaters. The Summary includes information provided by energy efficiency program sponsors and describes their current program offerings in 2016-2017 and beyond.

Each ENERGY STAR water heater program is summarized with a focus on incentives (e.g., mail-in rebates, recycling), program contacts, and other relevant program details. Participation in the Summary is voluntary and therefore does not represent all promotions and incentives available across the country. The information in this Program Summary is current as of July 26, 2016; more current or additional information may be available at www.energystar.gov/rebatefinder.

The Summary of Water Heater Programs is divided into the following sections:

1. **Executive Summary**
2. **Program Budget Map, National Water Heater Promotion Charts and Graphs**
– Overview of promotion types for water heater programs across the United States.
3. **Program Information** – A summary table of current water heater promotions organized by state.
4. **Partner Contact Directory** – Program websites, hotlines, and contact information for program managers.

If you have any questions or comments about the ENERGY STAR Summary of Water Heater Programs, please contact Robert Huang at the Cadmus Group, at robert.huang@cadmusgroup.com or 617.673.7117.

Executive Summary

The 2016 ENERGY STAR Summary of Water Heater Programs (Summary) presents information submitted by 134 energy efficiency program sponsors from across the United States. Partners have provided information on 236 individual incentive and promotion programs for ENERGY STAR water heaters. To improve the accuracy of available promotions nationwide, information submitted under umbrella organizations has been accounted for individually for each member utility, unless otherwise indicated as a statewide or centrally administered program.

From the information submitted by energy efficiency program sponsors, the key highlights include:

Program Budgets – Partners were asked to categorize their water heater program budgets into buckets demonstrating order of magnitude and range (e.g., less than \$50K, \$1 million - \$5 million, \$5 million - \$10 million). To calculate state totals, the mid-point of each bucket for each partner was summed within the state. Since exact budget information has not been provided, nor have all partners given budget information (see the [Water Heater Program Budget Map](#) on page 3 for more details), a precise total cannot be determined.

Promotions by Dollar Amount – Incentives in 2016 range from \$20 for gas storage water heaters to \$3,000 for solar water heaters. The average incentives for gas storage water heaters, tankless gas water heaters, and solar water heaters incentive types decreased from 2015, while the average incentives for electric storage water heaters and commercial water heaters increased. There were no “other” water heater types included in 2016. The largest decrease was for solar water heaters, which declined from \$1,022 in 2015 to \$613.48 in 2016. The largest increase was for electric storage water heaters, which increased from \$221.10 in 2015 to \$420.27 in 2016. See [Average Incentive Amount for ENERGY STAR Water Heaters: 2011, 2012, 2015, and 2016](#) on page 4 for more details on average incentive amounts.

Promotions by Product – Similar to 2015, electric storage water heater were the most popular promotion in 2016, representing 50% of water heater promotions. Gas storage water heaters (19%) have the next highest representation followed by tankless gas water heaters (15%), solar water heaters (12%), and commercial water heaters (4%). Gas storage water heaters experienced the greatest decline with 79 programs offered in 2015 compared to 45 in 2016. Electric storage water heaters experienced the greatest jump with 10 programs offered in 2016 compared to 9 in 2015. See [2016 ENERGY STAR Water Heater Promotions by Product Type](#) on page 4 and [ENERGY STAR Water Heater Promotions by Product Type: 2011, 2012, 2015, and 2016](#) on page 5 for more details.

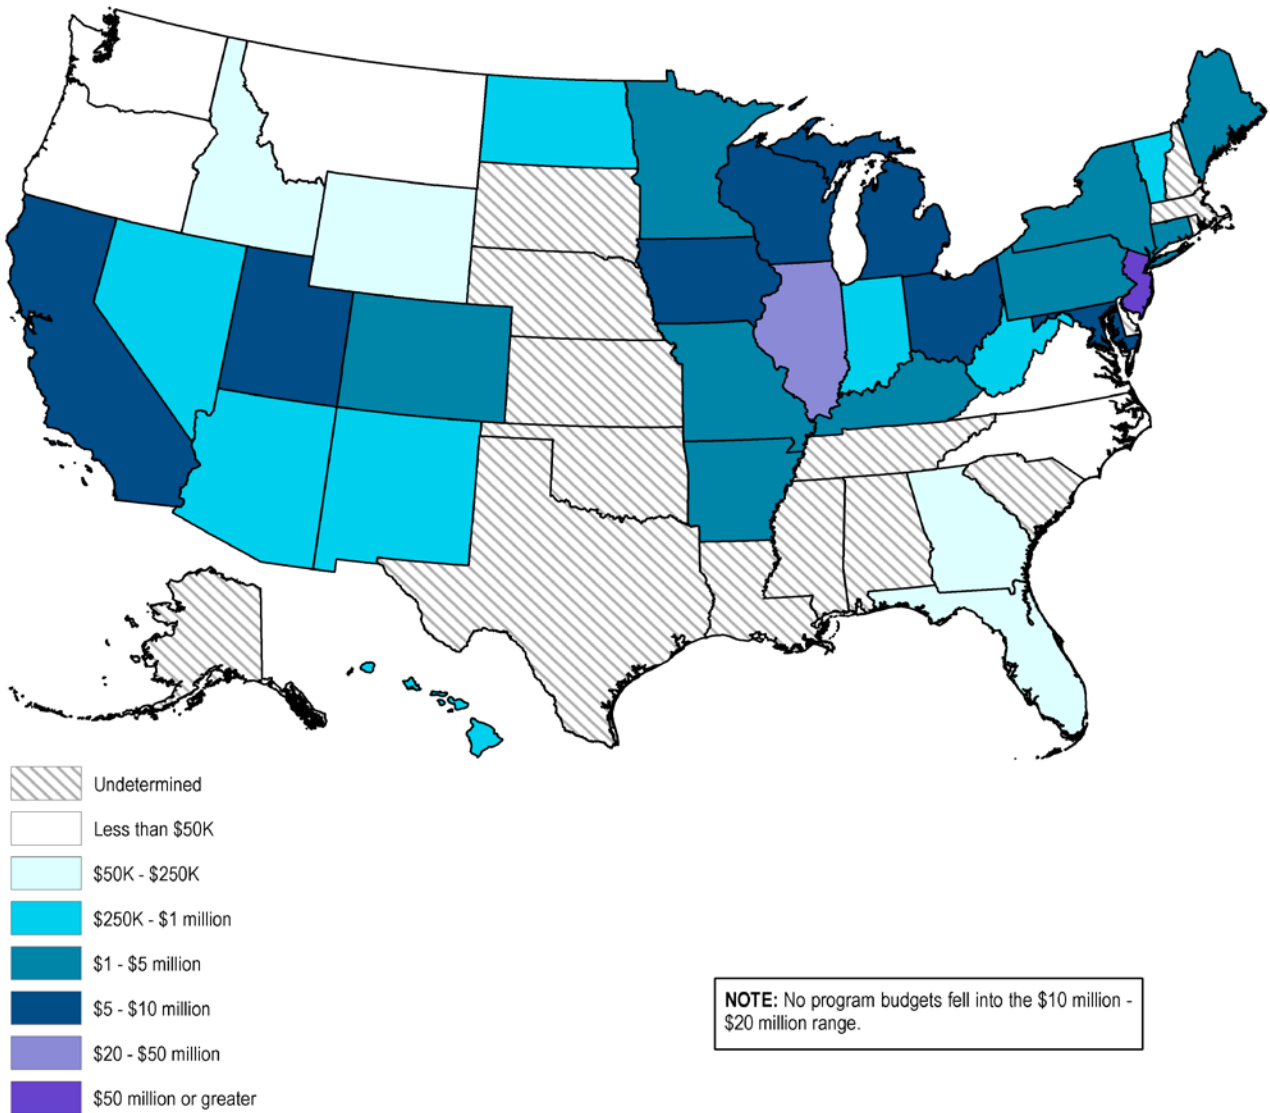

Promotions by Type – Similar to 2011, 2012, and 2015, almost all of the promotions, 90%, are mail-in rebates. Water heater promotions with instant rebates, low-interest loans, bill credits, manufacturer or retailer buy-downs and discounts account for the rest. See [2016 ENERGY STAR Water Heater Promotions by Incentive Type](#) on page 5 for more details.

Promotions by Region – Similar to 2011, 2012, and 2015, the Midwest region has the greatest number of water heater promotions, with 110. The West region follows next, with 36. The Southwest (24), the Southeast (23), the Northeast (22), and Mid-Atlantic (21) all decreased in total promotions from 2015. See [2016 ENERGY STAR Water Heater Promotions by Type and Region](#) on page 6 for more details.

Water Heater Program Budget Map

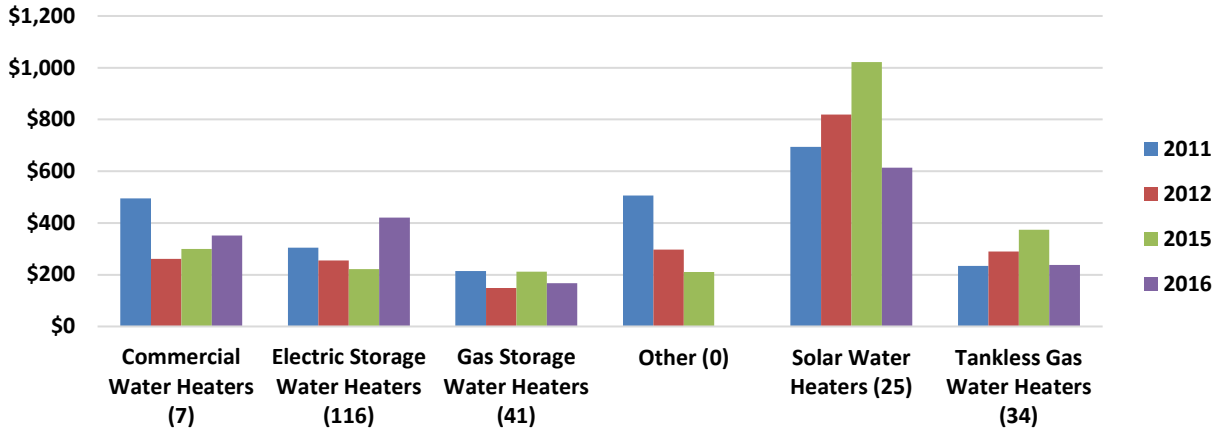

The map below shows program budgets for water heater programs by state as reported by the energy efficiency program sponsors.

NOTE: Energy efficiency program sponsors in the “undetermined” states may implement water heater promotional programs in 2016 and beyond, but were unable or did not elect to provide funding information. Likewise, states highlighted in color may not represent all the partner program budgets, as partners in those states also may have elected not to provide budget information. See the individual program entries for details.

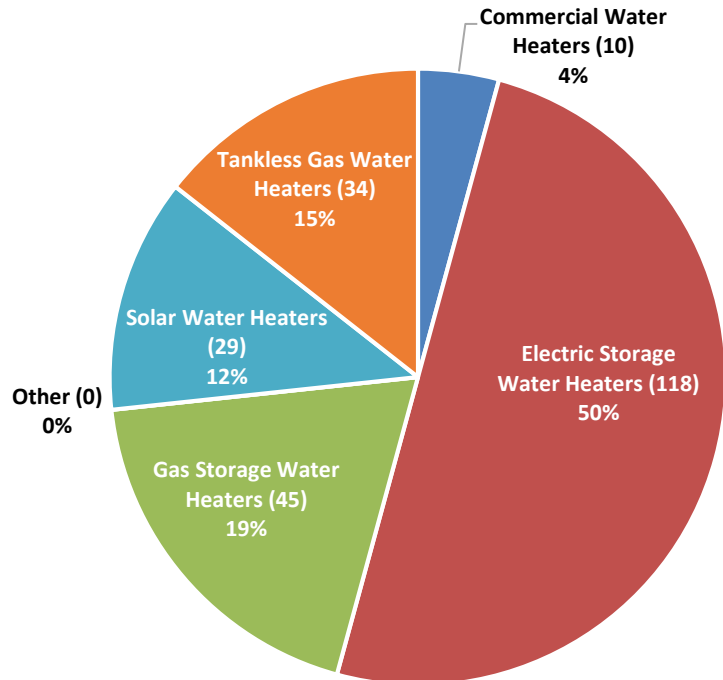

National Water Heater Promotion Charts and Graphs

**Average Incentive Amount for ENERGY STAR Water Heaters: 2011, 2012, 2015, and 2016
(2016 totals listed in parentheses)**

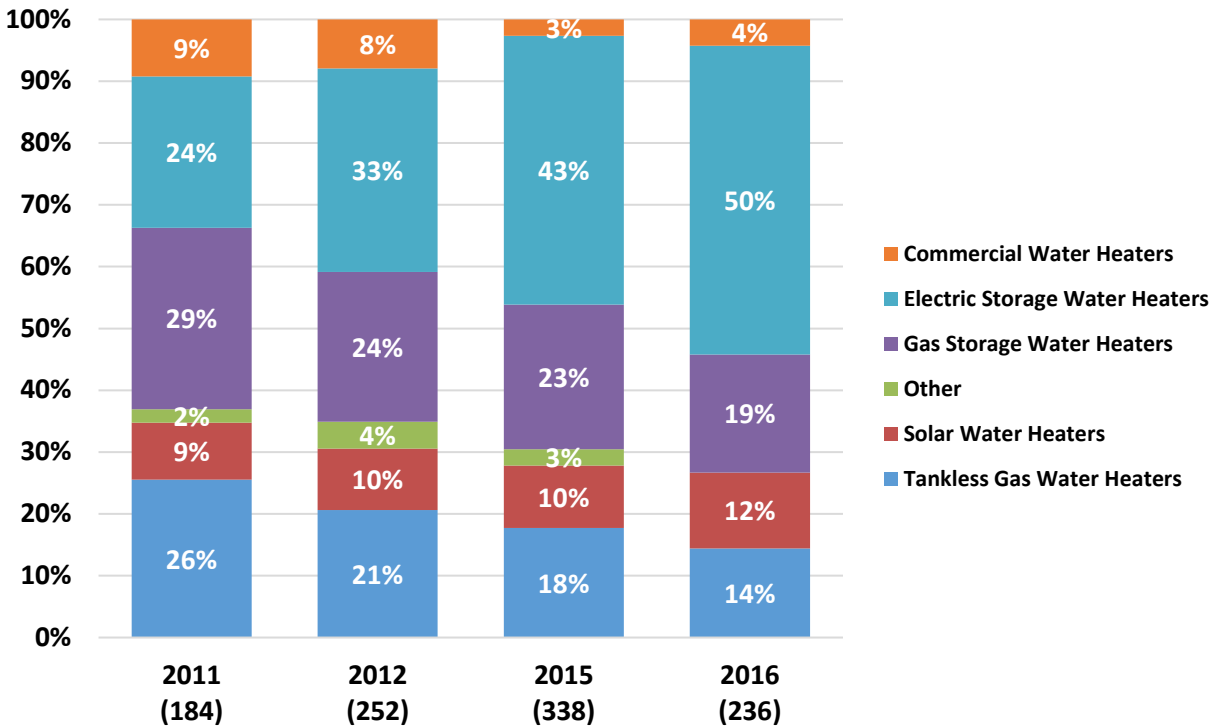

*Excluded from the averages are incentives which do not have a fixed-amount pricing. In 2015, 305 programs offered incentives with fixed-price amounts, 18 programs offered incentives up to a max amount, and 15 programs offered custom incentives. In 2016, 205 programs offered incentives with fixed-price amounts, 18 programs offered incentives up to a max amount, and 13 programs offered custom incentives. Information was not gathered specifically on water heater programs in 2013 and 2014.

**2016 ENERGY STAR Water Heater Promotions by Product Type
(Totals listed in parentheses)**

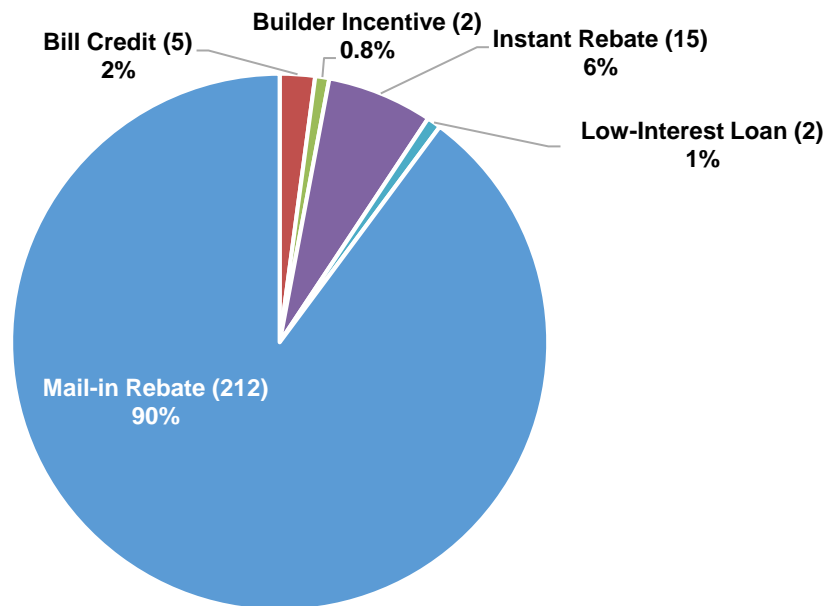

**ENERGY STAR Water Heater Promotions by Product Type: 2011, 2012, 2015, and 2016
(Annual totals listed in parentheses)**

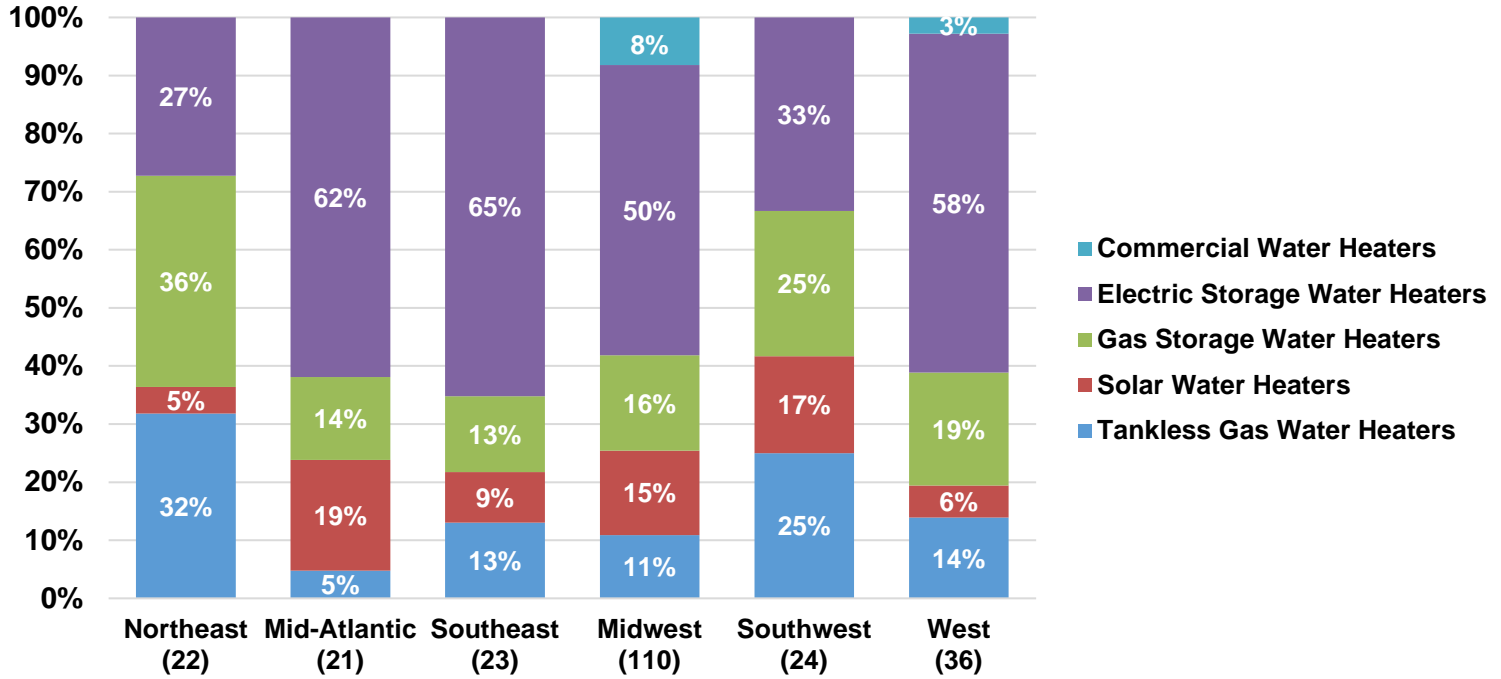

*The following product types were considered N/A and excluded from the analysis: Boilers, natural gas boilers, evaporative coolers, gas hybrid, and geothermal heat pumps. In 2011, 7 product offerings were deemed N/A and excluded. In 2012, 7 product offerings were deemed N/A and excluded from the analysis. Information was not gathered specifically on water heater programs in 2013 and 2014.

**2016 ENERGY STAR Water Heater Promotions by Incentive Type
(Totals listed in parentheses)**

**2016 ENERGY STAR Water Heater Promotions by Type and Region
(Region totals listed in parentheses)**

Water Heater Program Information

The table below provides information on products being promoted around the country by energy efficiency program sponsors. The information is organized by state and all promotions and incentives are for ENERGY STAR certified products unless otherwise specified. In some cases, energy efficiency program sponsors have indicated with which partner types they are most interested in working, but may also be open to working with different partner types. Please contact the program sponsor representative, found in the Partner Contact Directory following this section, to learn more about partnership opportunities. Target population is assumed to be residential unless otherwise noted.

STATE	PARTNER NAME	PROGRAM BUDGET	TARGET POPULATION	PRODUCTS	INCENTIVE AMOUNT	INCENTIVE TYPE	START DATE	END DATE
AR	CenterPoint Energy	<i>Not provided</i>	433K (Residential and Commercial)	Gas Storage Water Heaters	\$75	Mail-in Rebate	1/1/2016	12/31/2016
