

ENERGY STAR[®]

SUMMARY OF WATER HEATER PROGRAMS

The simple
choice for
energy
efficiency.

SEPTEMBER 2015 UPDATE

The U.S. Environmental Protection Agency (EPA) is pleased to provide the **2015 ENERGY STAR[®] Summary of Water Heater Programs** (Summary). The Summary provides an overview of a variety of programs offered by utilities and other energy efficiency program sponsors in the United States to promote ENERGY STAR certified commercial and residential water heaters. The Summary includes information provided by energy efficiency program sponsors and describes their current program offerings in 2015-2016 and beyond.

Each ENERGY STAR water heater program is summarized with a focus on incentives (e.g., mail-in rebates, recycling), program contacts, and other relevant program details. Participation in the Summary is voluntary and therefore does not represent all promotions and incentives available across the country. The information in this Program Summary is current as of July 27, 2015; more current or additional information may be available at www.energystar.gov/rebatefinder.

The Summary of Water Heater Programs is divided into the following sections:

1. **Executive Summary**
2. **Program Budget Map, National Water Heater Promotion Charts and Graphs** – Overview of promotion types for water heater programs across the United States.
3. **Program Information** – A summary table of current water heater promotions organized by state.
4. **Partner Contact Directory** – Program websites, hotlines, and contact information for program managers.

If you have any questions or comments about the ENERGY STAR Summary of Water Heater Programs, please contact Robert Huang at the Cadmus Group, at robert.huang@cadmusgroup.com or 617.673.7117.

Executive Summary

The 2015 ENERGY STAR Summary of Water Heater Programs (Summary) presents information submitted by 140 energy efficiency program sponsors from across the United States. Partners have provided information on 338 individual incentive and promotion programs for ENERGY STAR water heaters. To improve the accuracy of available promotions nationwide, information submitted under umbrella organizations has been accounted for individually for each member utility, unless otherwise indicated as a statewide or centrally administered program.

From the information submitted by energy efficiency program sponsors, the key highlights include:

Program Budgets – Partners were asked to categorize their water heater program budgets into buckets demonstrating order of magnitude and range (e.g., less than \$50K, \$1 million - \$5 million, \$5 million - \$10 million). To calculate state totals, the mid-point of each bucket for each partner was summed within the state. Since exact budget information has not been provided, nor have all partners given budget information (see the [Water Heater Program Budget Map](#) on page 3 for more details), a precise total cannot be determined.

Promotions by Dollar Amount – Incentives in 2015 range from \$25 for electric storage water heaters to \$2,500 for solar water heaters. The average incentives for electric storage water heaters and “other” water heater incentive types decreased from 2012, while the average incentives for commercial water heaters, gas storage water heaters, solar water heaters, and tankless gas water heaters increased. The largest decrease was for “other” water heater types, which declined from \$297.22 in 2012 to \$210 in 2015. The largest increase was for solar water heaters, which increased from \$818.75 in 2013 to \$1,022 in 2015. See [Average Incentive Amount for ENERGY STAR Water Heaters: 2011, 2012, and 2015](#) on page 4 for more details on average incentive amounts.

Promotions by Product – Unlike 2011 and 2012, electric storage water heater were the most popular promotion in 2015, representing 43% of water heater promotions. Gas storage water heaters (23%) have the next highest representation followed by tankless gas water heaters (18%), solar water heaters (10%), and commercial waters and other water heater types (3% each). Commercial water heaters experienced the greatest decline with 20 programs offered in 2012 compared to 9 in 2015. Electric storage water heaters experienced the greatest jump with 147 programs offered in 2015 compared to 83 in 2012. See [2015 ENERGY STAR Water Heater Promotions by Product Type](#) on page 4 and [ENERGY STAR Water Heater Promotions by Product Type: 2011, 2012, and 2015](#) on page 5 for more details.

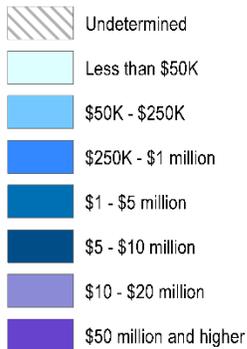

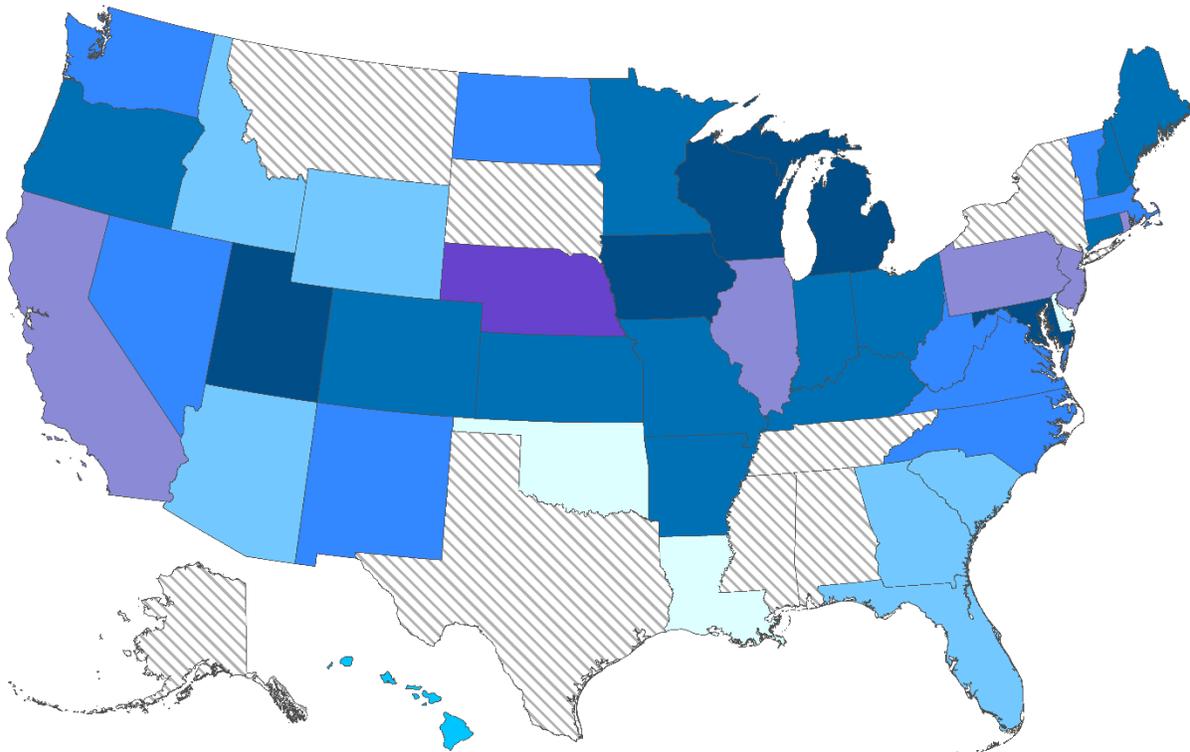

Promotions by Type – Similar to 2011 and 2012, almost all of the promotions, 92%, are mail-in rebates. Water heater promotions with instant rebates, low-interest loans, bill credits, manufacturer or retailer buy-downs and discounts account for the rest. See [2015 ENERGY STAR Water Heater Promotions by Incentive Type](#) on page 5 for more details.

Promotions by Region – Similar to 2011 and 2012, the Midwest region has the greatest number of water heater promotions, with 156. The Northeast region follows next, with 52. The West (42) and Mid-Atlantic (28) have increased total promotions from 2012, while the Southwest (34) and Southeast (26) have decreased total promotions. See [2015 ENERGY STAR Water Heater Promotions by Type and Region](#) on page 6 for more details.

Water Heater Program Budget Map

The map below shows program budgets for water heater programs by state as reported by the energy efficiency program sponsors.

NOTE: Energy efficiency program sponsors in the “undetermined” states may implement water heater promotional programs in 2015 and beyond, but were unable or did not elect to provide funding information. Likewise, states highlighted in color may not represent all the partner program budgets, as partners in those states also may have elected not to provide budget information. See the individual program entries for details.

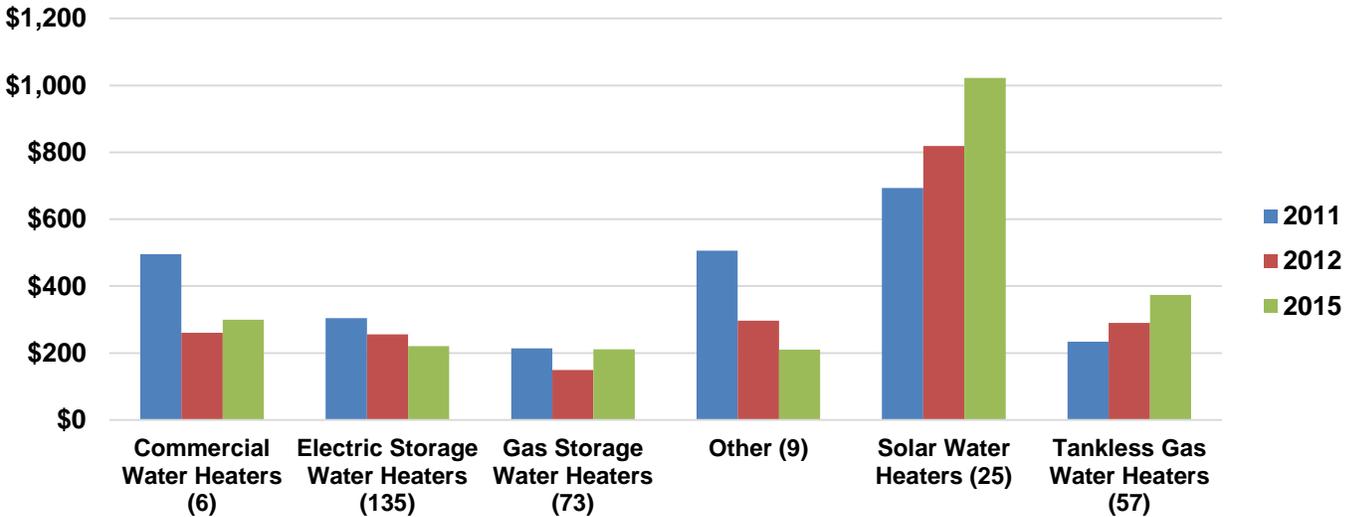

NOTE: No program budgets fell into the \$20 million - \$50 million range.

In addition, the Nebraska Energy Office maintains a substantial revolving loan fund, which can be used for water heaters and/or other energy efficiency measures.

National Water Heater Promotion Charts and Graphs

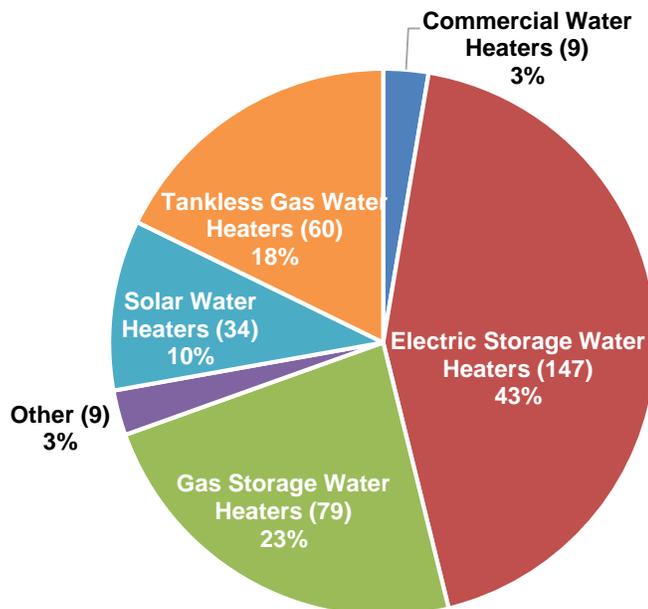

Percentages have been rounded to the nearest whole number for values over 2%. Totals may not equal 100%.

**Average Incentive Amount for ENERGY STAR Water Heaters: 2011, 2012, and 2015
(2015 totals listed in parentheses)**

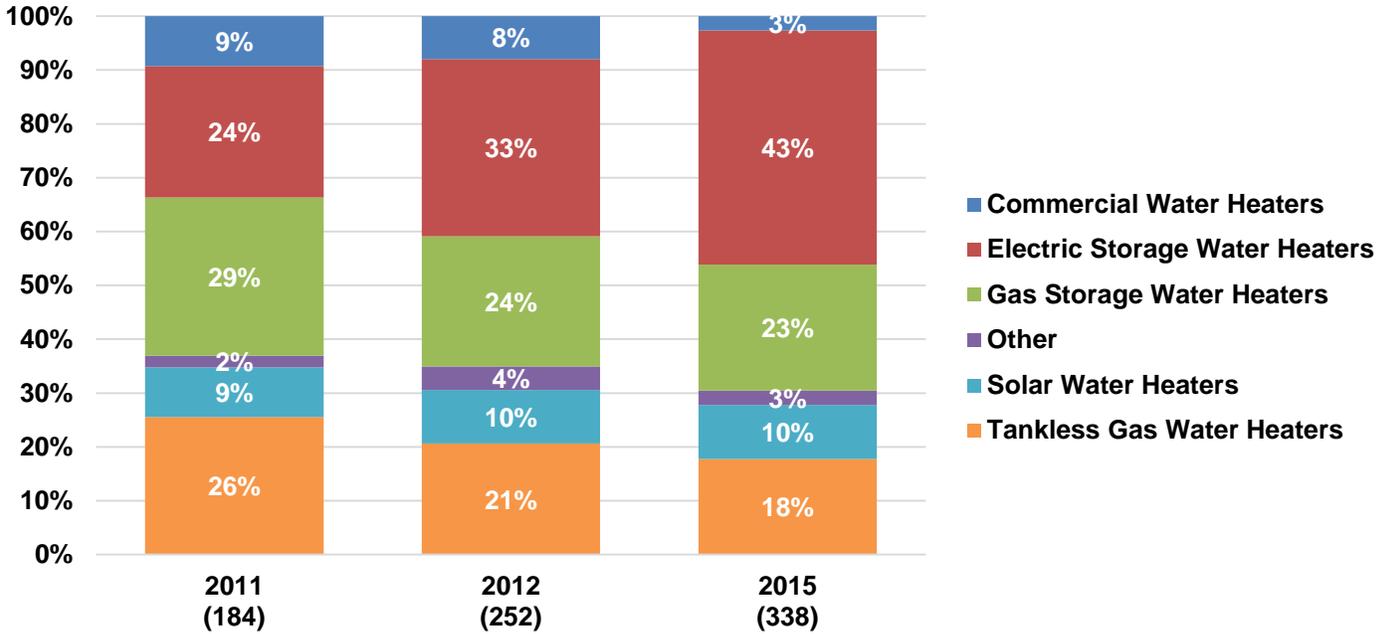

*Excluded from the averages are incentives which do not have a fixed-amount pricing. In 2011, 176 programs offered incentives with fixed-price amounts, 6 programs offered incentives up to a max amount, and 9 programs offered custom incentives. 2012 had 221 programs which offered incentives with fixed-price amounts, 25 programs offered incentives up to a max amount, and 13 programs offered custom incentives. In 2015, 305 programs offered incentives with fixed-price amounts, 18 programs offered incentives up to a max amount, and 15 programs offered custom incentives. Information was not gathered specifically on water heater programs in 2013 and 2014.

**2015 ENERGY STAR Water Heater Promotions by Product Type
(Totals listed in parentheses)**

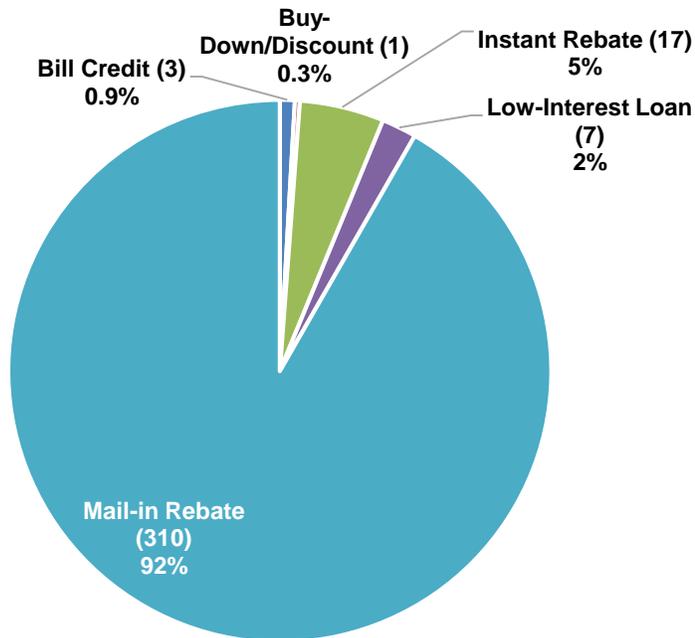

ENERGY STAR Water Heater Promotions by Product Type: 2011, 2012, and 2015
(Annual totals listed in parentheses)

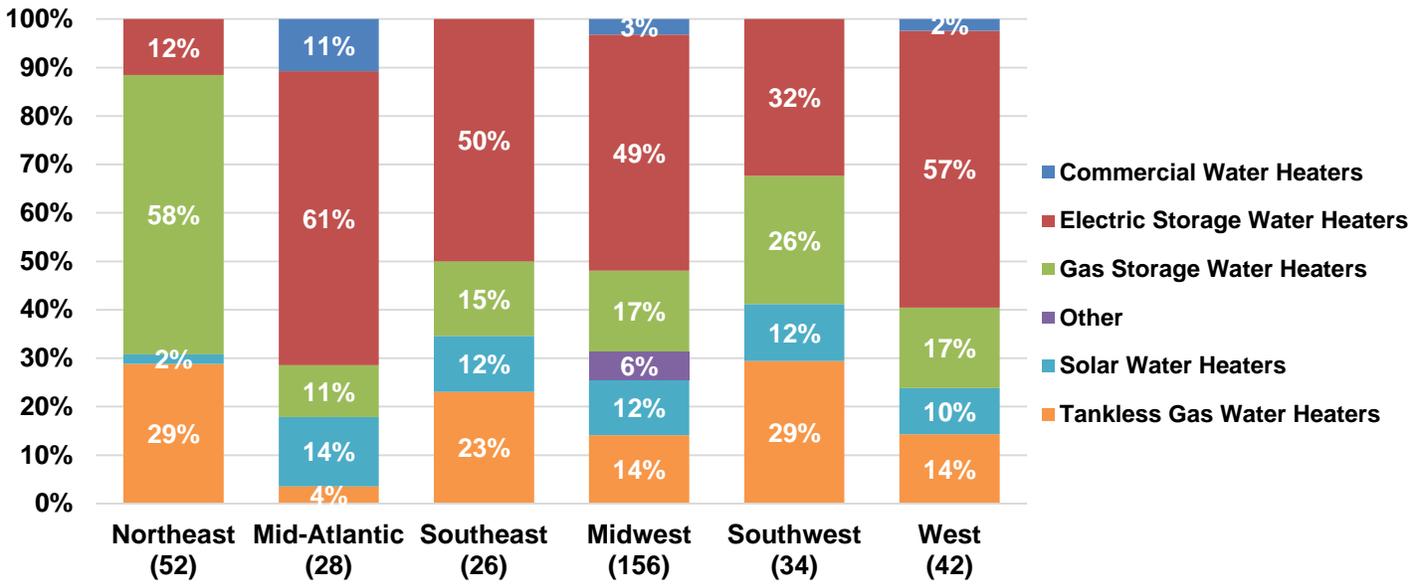

*The following product types were considered N/A and excluded from the analysis: Boilers, natural gas boilers, evaporative coolers, gas hybrid, and geothermal heat pumps. In 2011, 7 product offerings were deemed N/A and excluded. In 2012, 7 product offerings were deemed N/A and excluded from the analysis. Information was not gathered specifically on water heater programs in 2013 and 2014.

2015 ENERGY STAR Water Heater Promotions by Incentive Type
(Totals listed in parentheses)

**2015 ENERGY STAR Water Heater Promotions by Type and Region
(Region totals listed in parentheses)**

Water Heater Program Information

The table below provides information on products being promoted around the country by energy efficiency program sponsors. The information is organized by state and all promotions and incentives are for ENERGY STAR certified products unless otherwise specified. In some cases, energy efficiency program sponsors have indicated with which partner types they are most interested in working, but may also be open to working with different partner types. Please contact the program sponsor representative, found in the Partner Contact Directory following this section, to learn more about partnership opportunities.

Target population is assumed to be residential unless otherwise noted.
