

ENERGY STAR. The simple choice for energy efficiency.

October 14–15, 2015
Portland, Oregon

2015 ENERGY STAR® Certified Homes Stakeholder Meeting

2015 Partner Incentive Overview & 2014 Market Penetration

Fall 2015

UTILITY SPONSORS | BUILDERS | HOME ENERGY RATERS

This resource provides a full listing of incentives for certified homes offered by active ENERGY STAR Utility Sponsor Partners in 2015 as well as 2014 market penetration data for the ENERGY STAR Certified Homes Program. Incentive descriptions were self-reported by partners in the ENERGY STAR Utility Survey in February 2015 and may have changed and/or expired since then. Incentive descriptions collected during the annual survey are displayed on the [ENERGY STAR Partner Locator](#). Please contact energystarhomes@energystar.gov if your organization's incentive description is not accurate.

Utility Name	Service Territory	Program Name	Description of Incentives Offered in 2015
Alabama Power Company	Alabama	Superior Solutions Builder Program	An incentive of \$500 is available for homes that achieve a Superior Solutions HERS Score of 78 or ENERGY STAR HERS Score of 78. Homes that achieve a Superior Solutions HERS Score of 65 and ENERGY STAR receive \$600.
Arizona Public Service	Arizona	APS ENERGY STAR Homes	Production homebuilders may receive incentives up to \$1,500 for each ENERGY STAR certified new home. Certified homes with a HERS rating of 60 or better without renewable energy may qualify for \$1,500. ENERGY STAR jobsite training, customized model home marketing materials, consumer brochures, program advertising and training for sales teams are provided to support builders.
Salt River Project Agricultural Improvement and Power District	Arizona	SRP ENERGY STAR Homes	Homebuilders can participate and receive marketing support with qualifying new homes with a HERS Index of 71 or higher. New homes with a HERS Index of 70 or lower can obtain \$500 + \$50 per HERS Index point below 70. Training, advertising, and customized marketing materials are designed to help support the program and are offered throughout the year.
Southwest Gas Corporation	Arizona and Nevada	Smarter Greener Better Homes Program	Homebuilders must meet ENERGY STAR requirements. Rebates are paid based upon the home's HERS score.
Tucson Electric Power	Arizona	Energy Smart Homes	\$400 per home incentive is available for qualifying homes.
Conway Corporation	Arkansas	Energy Smart New Home	Conway Corporation's Energy Smart New Homes program recognizes residential new construction and local builders implementing above code energy efficiency measures including ENERGY STAR rated HVAC equipment, appliances, and lighting.

Note that incentives may have changed and/or expired since the survey results were collected in February 2015. Utility incentive information is listed on the ENERGY STAR Partner Locator. To update, email energystarhomes@energystar.gov.

Utility Name	Service Territory	Program Name	Description of Incentives Offered in 2015
Entergy Arkansas	Arkansas	Entergy Solutions New Homes Program	<p>The Entergy Arkansas New Homes Program awards financial incentives to homebuilders for constructing high efficiency homes. This program expanded in 2014 with two types of incentives plus a bonus for additional savings. The prescriptive incentive is for installation of set measures such as: ENERGY STAR HVAC, ENERGY STAR Lighting package, or an ENERGY STAR Fenestration package. These incentives do not require a HERS rating. The Whole House incentive is 40 cents/kWh paid for savings achieved above the Arkansas Energy Code baseline. Savings are verified by a HERS rating. Bonus are paid for achieving additional savings or ENERGY STAR.</p>
Pacific Gas and Electric	California	California Advanced Homes Program	<p>The 2015 Statewide California Advanced Homes Program. Homebuilders can obtain rebates on a linear scale for qualifying new homes. In addition, homebuilders can qualify for ENERGY STAR New Homes Program marketing credit for ENERGY STAR certified homes. At this time there are no additional incentives for installing qualified appliances and lighting.</p>
San Diego Gas and Electric	California	California Advanced Homes Program	<p>The 2015 Statewide California Advanced Homes Program. Homebuilders can obtain rebates on a linear scale for qualifying new homes. In addition, homebuilders can qualify for ENERGY STAR New Homes Program marketing credit for ENERGY STAR certified homes. At this time there are no additional incentives for installing qualified appliances and lighting.</p>
