

Email received on January 5, 2010 from Steve Medellin

Hello Bryan,

Some of the labs that we accredit appear to be getting conflicting information on this topic. Some of these labs have been told that with respect to the Energy Star lighting program, only NVLAP accreditations are recognized. The requirements documents appear to indicate that you recognize MRA signatories such as A2LA.

Can you please get back to me on this.

Thanks.

Steve
