

**ENERGY STAR Enhanced Testing and Verification Program
Product-specific Meetings: Consumer Electronics and IT
Equipment
March 31, 2010**

Product-specific Meeting

This meeting will focus on testing issues related to Consumer Electronics and IT Equipment. The information presented in this meeting will build on the concepts presented during the program-wide stakeholder webinar regarding enhanced testing and verification held on March 26, 2010, but focus specifically on the new proposed requirements for Consumer Electronics and IT Equipment. This meeting will be held on:

Date: March 31, 2010

Time: 11:00 AM - 12:00 PM U.S. Eastern Time

Below is the outline to frame this discussion.

1. Overview of Enhanced Testing and Verification Requirements for ENERGY STAR
2. Products to discuss
 - a. Audio/Video Equipment
 - b. Computers
 - c. Data Center Storage
 - d. Decorative Light Strings
 - e. Digital to Analog Converter Boxes
 - f. Displays
 - g. Imaging Equipment
 - h. Servers
 - i. Set-Top Boxes
 - j. Small Network Equipment
 - k. Telephony
 - l. Televisions
 - m. Uninterruptible Power Supplies
3. New proposed requirements for CE/IT Products
 - a. Lab accreditations for Qualifying and Verifying Products
 - b. Verification Program Administration
 - c. Frequency of testing

4. Discussion of CE/IT product considerations
 - a. Building off of Computer Verification Testing Guidelines and Procedures Manual
 - b. Testing products sold through VARs and expensive products
 - c. Testing products not sold through traditional retail outlets (datacenter products, STBs, other)
 - d. Lab accreditations
