

Email received on January 8, 2010 from Steve Jordanoff.

We have a couple of comments/questions:

1. We did not see any reference to the ENERGY STAR Quantity Quotes Program. Is it to be continued or revised?
2. We agree with what was stated under the heading "Commercial/Industrial Light Fixtures." We are continually being asked if our high-bay, industrial and strip fluorescent fixtures are ENERGY STAR Qualified.

Thank you for the opportunity to comment and we hope that you will find our info of some value.

Best regards,

Steve Jordanoff, B.A.Sc.,B.Comm.,MBA,P.Eng
Sales and Marketing Manager
