**Subject:** Comment on Draft AB Requirements  
**Date:** Wednesday, May 12, 2010 5:14:55 PM

---

To Whom it may Concern,

Oki Data Americas (ODA) would like to register a comment on behalf of our Japanese parent company, Oki Data Corporation (ODC). ODC manufactures most of our imaging devices (both single and multifunction printers). Their message is as follows:

1. We are afraid that the schedule suggested by EPA (a test report at a third party lab is required on November 30 or later) is too tight to make a third party lab in Japan complete the preparation in time even if EPA doesn't approve the self-certified notification at all. We would like to suggest the schedule be changed.
2. We would like an in-house test report to be accepted for the next one year or so even if the (third party) test report is required.

Thank you.

Best Regards,  
Bob.
