|EPA/DOA Products Enhanced Testing and Verification Program  
|  
>-----  
-----|

Dear Ms. Vokes,

With regard to the new Testing and Verification Program please consider that the administering body(s) should not also be eligible to perform the actual testing and verification. It would provide them an unfair advantage over the other testing labs.

Please let me know if you have any questions.

Best Regards,

TUV Rheinland of North America
