Subject: Top Tier

Hello Maria,

My name is Wes Wostal I am a engineering manager with ClimateMaster we are a manufacturer of Geothermal Heat Pumps and an Energy Star Partner. I am also the chairperson for the AHRI Engineering Committee for the Water Source / Geothermal Heat Pump section. I listened in on your Top Tier webinar last week and I apologize I have been unable to find the section on the Energy Star web site where the questions that you were unable to answer during the meeting are posted and answers are posted. My quick question is will Geothermal Heat pumps we included in the Top Tier program.

Regards,

Wes Wostal
