## ENERGY STAR Background Information

EPA's ENERGY STAR helps consumers, businesses, and public organizations protect the environment through superior energy efficiency. ENERGY STAR for Homes promotes energy-efficient homes that can improve builder profitability, improve home quality and homeowner comfort, lower energy demand, and reduce air pollution. ENERGY STAR qualified homes are third-party verified to be significantly more energy efficient than homes built to code.\* Savings are typically achieved through a combination of envelope upgrades, high performance windows, controlled air infiltration, upgraded heating and air conditioning systems, tight duct systems, upgraded waterheating equipment, and efficient lighting and appliances.

\* Please visit the ENERGY STAR Web site at [www.energystar.gov](http://www.energystar.gov) for information on current ENERGY STAR guidelines.
