

SAVE THE DATE: DIGITAL TELEVISION ADAPTER (DTA) WORKSHOP, JULY 21, 2006, IN WASHINGTON, DC

Dear ENERGY STAR[®] Stakeholder:

The U.S. Environmental Protection Agency (EPA) invites you to participate in an **ENERGY STAR DTA Specification Development workshop in Washington, DC on Friday, July 21, 2006**. During this working session, participants will discuss and share feedback on the appropriate test procedure to measure the power consumption of DTAs in both On and Standby mode and planned next steps in the specification development process as well as timing of those steps.

This meeting will be key as EPA begins development of a draft specification for these products and we hope you will participate. This notice is being sent to a wide range of stakeholders. Please pass this invitation onto relevant engineers, technical marketing, and QA colleagues, and component manufacturers.

The workshop will take place in Room 152 at 1310 L St. NW in Washington, DC. Additional details, such as a confirmed meeting time and agenda, will be distributed shortly. For additional information, please feel free to contact Katharine Kaplan Osdoba, EPA, at 202-343-9120 or osdoba.katharine@epa.gov or Mehernaz Polad, ICF International, at 202-862-1175 or mpolad@icfi.com. Please **RSVP by e-mail to mpolad@icfi.com**.

Note: The DTA workshop will be preceded by a TV test procedure workshop on July 20, 2006 – also being held in Washington, DC. If you are interested in attending the July 20, 2006 TV test procedure workshop or receiving additional information about it, please e-mail Mehernaz Polad at the address noted above.

Thank you for your continued support of ENERGY STAR.

This e-mail is being sent on behalf of ENERGY STAR. ICF International provides consulting services in a broad range of areas. ICF International does not determine or interpret EPA policy.
