**Comments:**

Hi Robin,

I have a comment. Would it be possible to add the following paragraph from the cover letter to the draft document itself? We at Epson believe that this is important information and should be included. It is at the top of page two.

Paragraph:

"Computers and Imaging: Current specifications for these product categories require partners to meet the EPS Version 1.1 requirements, where applicable. EPS Version 2.0 requirements will be effective for computers and imaging equipment at the same time the Tier 2 specifications for those products apply."

Thanks,

Mark Heustis
