Re: ENERGY STAR Program Requirements Product Specification
For Residential Dishwashers, Eligibility Criteria, Draft 2, Version 5.0

On behalf of General Electric, Appliances & Lighting (GE), I am pleased to submit the following comments concerning the ENERGY STAR Program Requirements Product Specification for Residential Dishwashers, Eligibility Criteria, Draft 2, Version 5.0. GE has had a long commitment to energy efficiency, including the manufacture of energy efficient appliances, as evidenced by the receipt last year of ENERGY STAR's Sustained Excellence award for the fifth straight year. As such we have a strong commitment to the value of the ENERGY STAR brand, and offer these comments to you in a spirit of partnership.

GE would like to adopt by reference the comments on the revised specification that we understand will be submitted by the Association of Home Appliance Manufacturer's (AHAM).

Please do not hesitate to contact me with any questions.

Sincerely,

A handwritten signature in black ink that reads 'Kelley Kline'. The signature is fluid and cursive, with the first and last names clearly legible.
