

CHANGE THE WORLD, START WITH ENERGY STAR®

How to place your logo on a PDF.

Step One: Launch Acrobat Professional (not Acrobat Reader). Go to: File > Open and open the banner.

Step Two: Go to: Tools > Advanced Editing > TouchUp Object Tool.

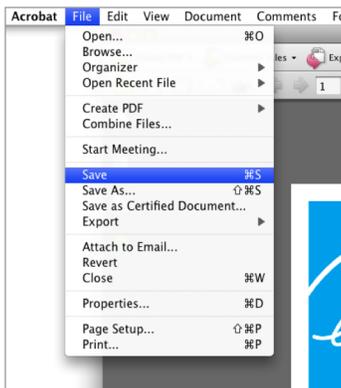

Step Three: Right click your mouse anywhere on the banner PDF. Then go to: Place Image. Select the version of your company logo to be placed. Make sure it is the correct size (400%) to fit a 102" x 42" banner.

Step Four: Place your logo in the correct location. Remember, the placed logo must be a high resolution JPEG sized appropriately. Logos cannot be resized when placed on the banner.

Step Five: Go to: File > Save.

Step Six: Save your edited custom banner. You can deliver the file to a professional vendor or produce it in house if you have large-format printing capabilities.
