Team ENERGY STAR makes it easy and enjoyable for the whole family to save energy and money while they do their part to help protect the climate. With help from the heroic characters from the film, EPIC, everyone can make a difference for the planet. Join Team ENERGY STAR today by visiting energystar.gov/team!

Here are some ideas on things you can do at home to get started going green with Team ENERGY STAR today!

- 🍃 Turn off the TV, lights, fans, and other electronics when not using them.
- 🍃 Recycle paper, plastic, glass, and cans. When purchasing new items, look for ones made from recycled materials.
- 🍃 Use the power management settings for the computer and monitor when you take a break.
- 🍃 Unplug electronics and battery chargers when they are finished charging.
- 🍃 Plant a tree.
- 🍃 Walk, ride a bike, or skateboard instead of using a car.
- 🍃 Keep doors and windows closed when the air-conditioning or heat is on. Hot and cold air escape quickly!
- 🍃 When your family is shopping for a new TV, light bulb, appliance, or other product that uses energy, recommend that they look for products that are labeled with the ENERGY STAR logo. This means that they are certified as energy efficient by the EPA.

My EPIC Pledge to Protect Our Planet

I'M PLEDGING TO:
