

ENERGY STAR. The simple choice for energy efficiency.

October 25-27, 2016
New Orleans, Louisiana

2016 ENERGY STAR® Certified Homes Stakeholder Meeting

2015 Market Penetration &
2016 Partner Incentive Overview

Fall 2016

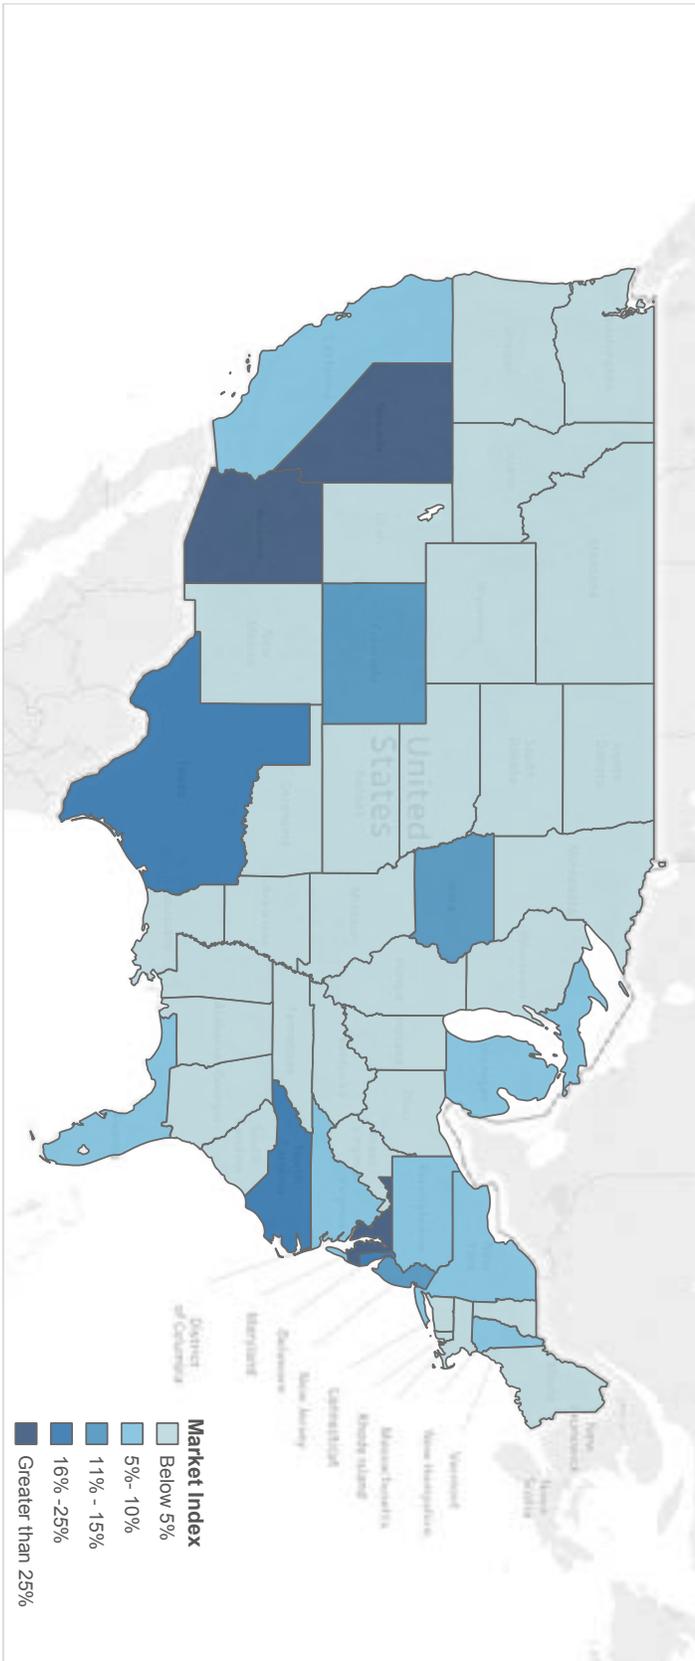

UTILITY SPONSORS | BUILDERS | HOME ENERGY RATERS

This resource provides 2015 market penetration data for the ENERGY STAR Certified Homes Program as well as a full listing of incentives for certified homes offered by active ENERGY STAR Utility Sponsor Partners in 2016. Incentive descriptions were self-reported by partners in the ENERGY STAR Utility Survey in February 2016 and may have changed and/or expired since then. Incentive descriptions collected during the annual survey are displayed on the [ENERGY STAR Partner Locator](#). Please contact energystarhomes@energystar.gov if your organization's incentive description is not accurate.

Utility Name	Service Territory	Program Name	Description of Incentives Offered in 2016
Arizona Public Service	Arizona	APS ENERGY STAR New Construction Program	Production homebuilders may receive incentives up to \$1,500 for each ENERGY STAR certified new home. Certified homes with a HERS rating of 60 or better without renewable energy may qualify for \$1,500. Success with ENERGY STAR jobsite training, customized model home marketing materials, consumer brochures, program advertising and training for sales teams are provided to support builders.
Salt River Project	Arizona	SRP ENERGY STAR Homes	Homebuilders can participate and receive marketing support with qualifying new homes with a HERS Index of 71 or higher. New homes with a HERS Index of 70 or lower can obtain \$500 + \$50 per HERS Index point below 70. Training, advertising, and customized marketing materials are designed to help support the program and are offered throughout the year.
Southwest Gas Corporation	Arizona	Smarter Greener Better Homes Program	Homebuilders must meet ENERGY STAR requirements. Rebates are paid based upon the home's HERS score.
Tucson Electric Power	Arizona	TEP Energy Smart Homes	\$400 per home incentive for qualifying homes. Rebates are paid based upon the home's HERS score.
Conway Corporation	Arkansas	Energy Smart New Homes Program	Conway Corporation's Energy Smart New Homes program recognizes residential new construction and local builders implementing above code energy efficiency measures including ENERGY STAR rated HVAC equipment, appliances, and lighting.
Pacific Gas and Electric Company	California	Single Family: California Advanced Homes Program, Multifamily: California Multifamily New Homes	The California Advanced Homes Program delivers incentives based on the modeled energy performance of participating homes, with increasing incentives for lower energy scores. The program offers bonuses for ultra low total home energy use, early code preparation, certification with the DOE Zero Net Energy Ready Home program and installing 100% high efficacy lighting. Builders are also eligible for marketing credit when certifying to the ENERGY STAR program.
