

# ENERGY STAR®

## SUMMARY OF HVAC & SMART THERMOSTAT PROGRAMS

The simple  
choice for  
energy  
efficiency.

### AUGUST 2019 UPDATE

The U.S. Environmental Protection Agency (EPA) is pleased to provide the **2019 ENERGY STAR® Summary of HVAC & Smart Thermostat** (Summary). The Summary provides an overview of a variety of programs offered by utilities and other energy efficiency program sponsors in the United States to promote ENERGY STAR certified residential and commercial heating, ventilation, and air conditioning (HVAC) equipment, including smart thermostats. The Summary includes information provided by energy efficiency program sponsors and describes their current program offerings in 2019-2020 and beyond.

Each ENERGY STAR HVAC and smart thermostat program is summarized with a focus on incentives (e.g., mail-in rebates, instant discounts), program contacts, and other relevant program details. Participation in the Summary is voluntary and therefore may not represent all promotions and incentives available across the country.

The information in this Program Summary is current as of July 1, 2019. More current or additional information may be available at [www.energystar.gov/rebatefinder](http://www.energystar.gov/rebatefinder). The information provided in this Summary focuses on ENERGY STAR-branded programs, but Rebate Finder provides a more comprehensive list of incentives that are eligible for ENERGY STAR, but do not require ENERGY STAR-certified products.

The Summary is divided into the following sections:

1. **Executive Summary**
2. **Program Budget Map, National HVAC and Smart Thermostat Promotion Charts and Graphs** – A graphical overview of promotions for HVAC and smart thermostat programs across the United States.
3. **Programs Information** – An overview table of current HVAC and smart thermostat promotions organized by state.
4. **Partner Contact Directory** – Program websites, hotlines, and contact information for program managers.

If you have any questions or comments about the ENERGY STAR Summary of HVAC & Smart Thermostat Programs, please contact Nora Lovrien Buehler at ICF, at [nora.lovrienbuehler@icf.com](mailto:nora.lovrienbuehler@icf.com) or 202-862-1589.

## ***Executive Summary***

The 2019 ENERGY STAR Summary of HVAC & Smart Thermostat Programs (Summary) presents information submitted by 88 energy efficiency program sponsors from across the United States, including 6 “umbrella organizations” and statewide programs running promotions on behalf of or in conjunction with cooperative or municipal utilities and investor-owned utilities. Partners have provided information on 715 individual incentive and promotion programs for ENERGY STAR certified HVAC equipment and smart thermostats. To improve the accuracy of available promotions nationwide, information submitted under umbrella organizations has been accounted individually for each member utility, unless otherwise indicated as a statewide or centrally administered program.

From the information submitted by energy efficiency program sponsors, the key highlights include:

**Program Budgets** – Partners were asked to categorize their HVAC and smart thermostat program budgets into buckets demonstrating order of magnitude and range (e.g., less than \$50K, \$50K - \$250K, \$1 - \$5 million). To calculate state totals, the mid-point of each bucket for each partner was summed within the state. Since exact budget information has not been provided, nor have all partners given budget information (see the [HVAC & Smart Thermostat Budget Map](#) on page 3 for more details), a precise total cannot be determined. In 2019, based on the mid-point calculation, ENERGY STAR HVAC and smart thermostat programs were funded at just over \$80 million. In 2018, the first year this summary was developed, programs were funded at just under \$70 million using the same mid-point calculation.

**Promotions by Dollar Amount** – Incentives in 2019 range from \$25 for smart thermostats to \$1,750 for geothermal heat pumps. The average incentive for central air conditioning units in 2019 is just over \$215 (a 16% decrease from 2018 to 2019), while air-source heat pumps have an average incentive of \$305 (representing a 15% decrease from 2018 to 2019). Smart thermostats have an average incentive of over \$68, a 6% decrease from 2018 to 2019. Geothermal heat pumps have the highest average incentive amount of just over \$750, which is a 39% decrease compared to 2018, and boilers have the second highest average incentive amount of over \$380, which is a 14% decrease from 2018. Ductless heating & cooling equipment has an average incentive amount just under \$290 (representing a 9% decrease from 2018 to 2019) and furnaces have an incentive amount of over \$370 (representing almost a 10% decrease from 2018). See [2019 Average Incentive Amount for ENERGY STAR HVAC & Smart Thermostat](#) on page 4 for a graphical display of average incentive amounts.

**Promotions by Product** – In 2019 air-source heat pumps are the most popular incentive accounting for 32% of all incentives, this demonstrates a 14% increase in number of incentives from 2018 to 2019. Smart thermostats have the next representation at 29% (a 6% increase from 2018 to 2019) of all incentives followed by central air conditioners with 23% of all incentives, which represents a 14% decrease in number of incentives from 2018 to 2019. Geothermal heat pumps follow with 12%, which is a 6% decrease from 2018, and then furnaces at 3%, which is a 1% increase compared to 2018. Ductless heating & cooling equipment and boilers have the lowest representation at 1%, which is a 1% decrease from 2018 to 2019. See [2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Product Type](#) and [ENERGY STAR and Energy-Efficient HVAC & Smart Thermostat Promotions by Product Type 2018-2019](#) on page 4 and 5 for more information.

**Promotions by Type** – Almost all of the promotions—92%—are mail-in rebates. HVAC and smart thermostat promotions with instant rebates, mid-stream rebates, online rebates, buy-down/discounts, and bill credits account for the rest. In 2018, 97% of the promotion types were mail-in rebates. Most of the non-mail-in rebates are attributed to smart thermostats. For smart thermostats, 61% are mail-in rebates, followed by online rebates at 20%, instant discounts at 17%, and finally midstream and buy-down/discounts tied at 1%. See [2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Incentive Type](#) on page 5 for more details.

**Promotions by Installation Criteria & Incentive Recipient** – In 2019, ENERGY STAR requested additional information about intended recipients and installation requirements for incentives provided. Of the 715 incentives, 58% provided incentive recipient information and information on installation criteria. Of the 400 responses for incentive recipient, only 3 incentives were specified for distributors or dealers (similar to the 2 specified in 2018), 2 were specified for manufacturers (new to 2019), and the remainder were intended for customers. Partners were provided four options for installation criteria (self-install, contractor install – any mode, contractor install – specific list, and any mode of installation) and were asked to categorize each incentive. Of the responses, “any mode of installation” was the most popular installation criterion (33%), followed by contractor installation from any contractor (33%), and contractor installation

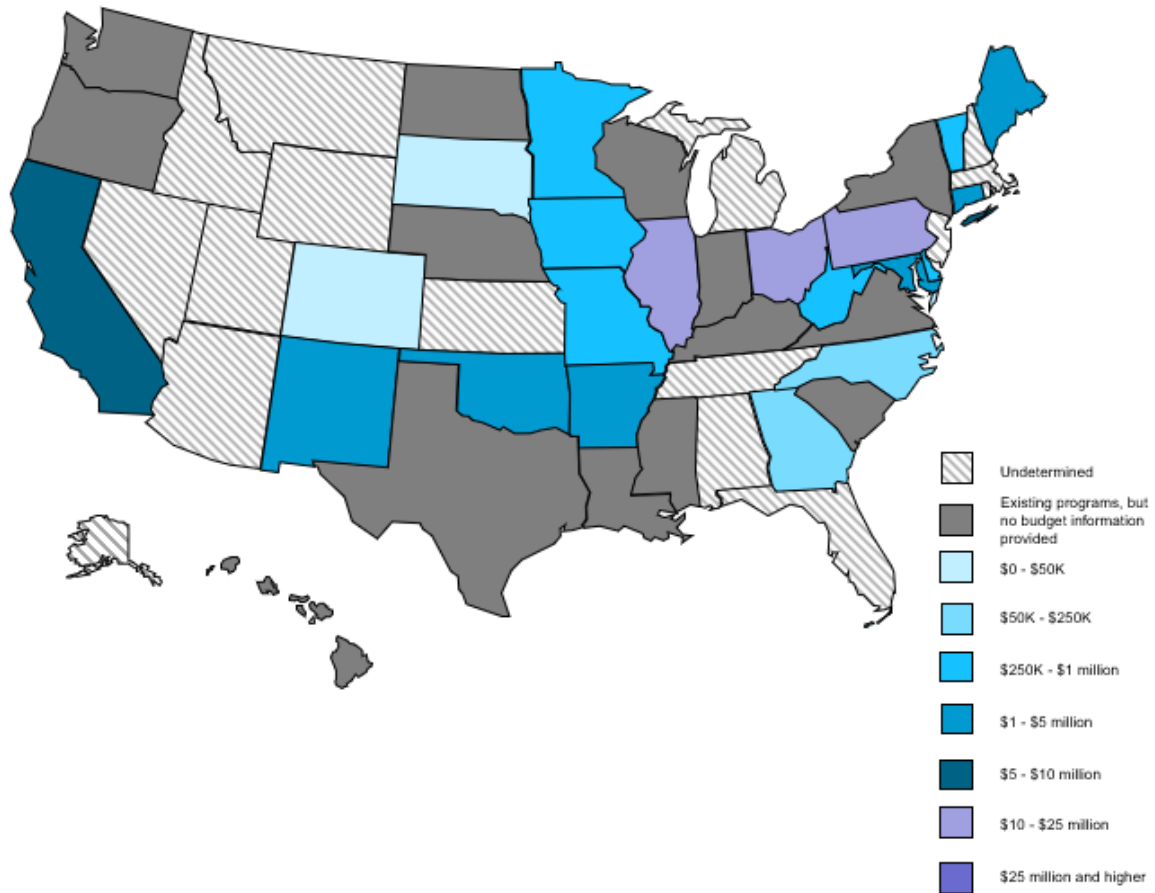

from a specific list (3%). Only smart thermostats offered a self-installation option, accounting for 1% of all incentives. In 2018 only 63 incentives provided information for installation criteria, in 2019 almost 500 incentives provided information. See [2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Installation Criteria](#) on page 6 for more information.

**Promotions by Region** – Similar to 2018, the Midwest region has the greatest number of ENERGY STAR certified HVAC and smart thermostat promotions with 564. The Midwest's high number of promotions in comparison to other regions is largely due to the number of smaller cooperative and municipal utilities offering promotions for HVAC equipment and smart thermostats. The Mid-Atlantic region follows with 54. The Southeast, Southwest, and Northeast trail with 18, 17, and 11, respectively. All regions showed an increase in the number of incentives offered between 2018 and 2019. See [2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Type and Region](#) on page 6 for more details.

## HVAC & Smart Thermostat Map

The map below shows program budgets for HVAC & smart thermostat programs by state as reported by the energy efficiency program sponsors.

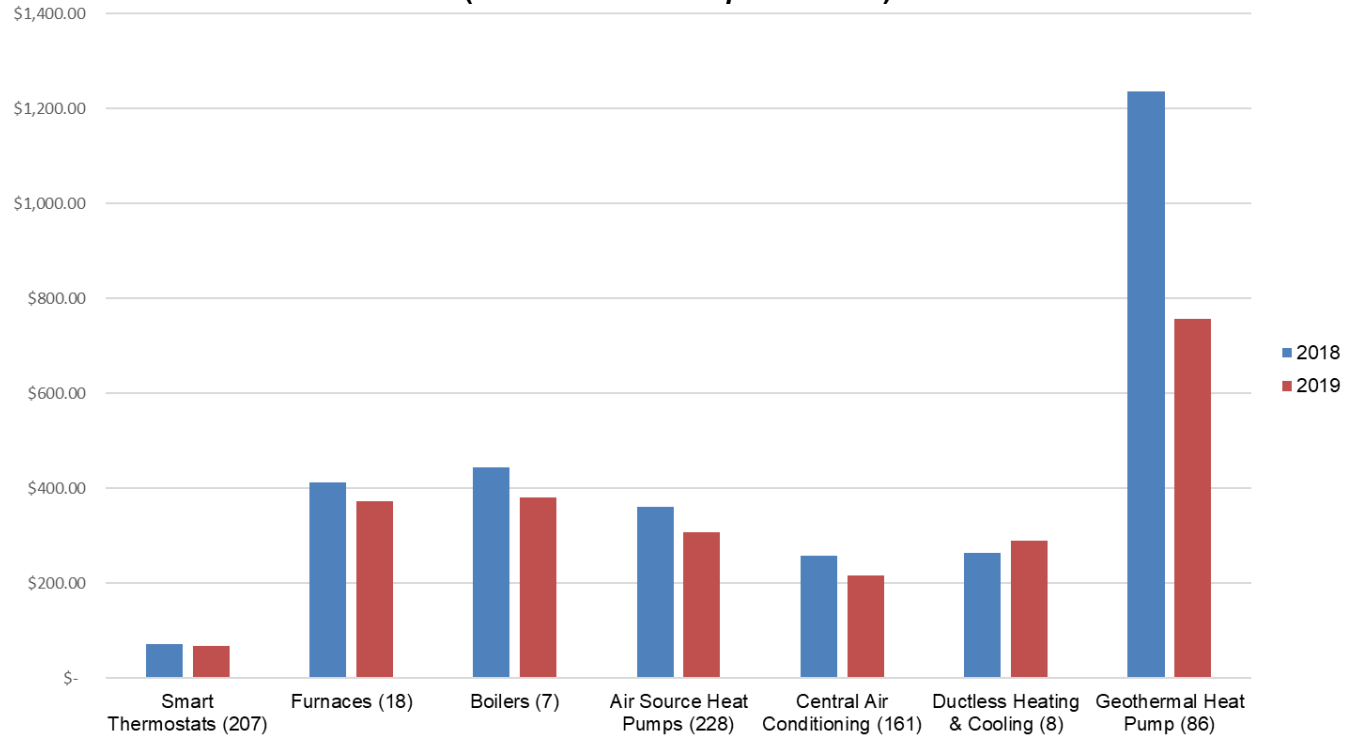

**NOTE:** Energy efficiency program sponsors in the “undetermined” states may implement HVAC and smart thermostat promotional programs in 2019 and beyond but were unable or did not elect to provide funding information. Likewise, states highlighted in color may not represent all the partner program budgets, as partners in those states also may have elected not to provide budget information. See the individual program entries for details.

## National HVAC & Smart Thermostat Promotion Charts and Graphs

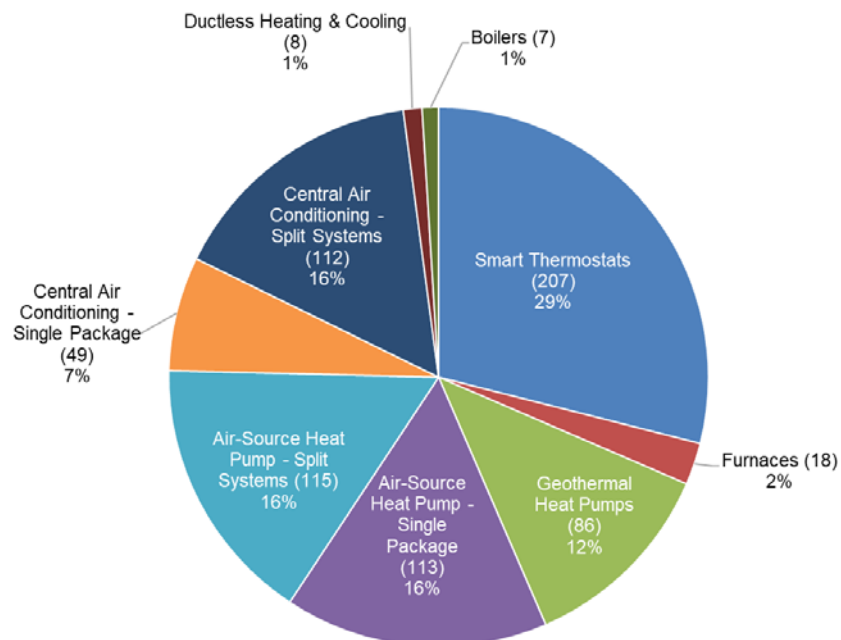

Percentages have been rounded to the nearest whole number for values over 2%. Totals may not equal 100%.

### Average Incentive Amount for ENERGY STAR HVAC & Smart Thermostat: (2019 totals listed in parentheses)

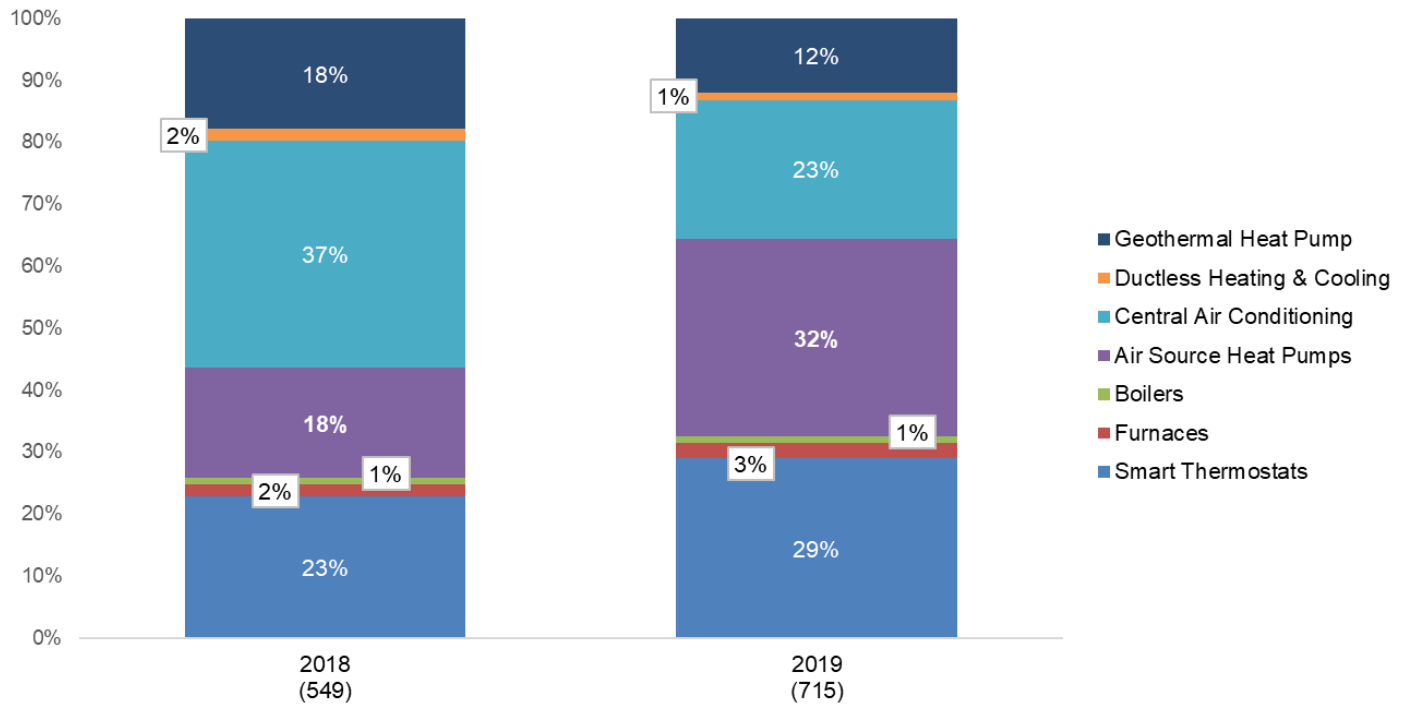

\* Excluded from the averages are custom amount incentives based on a kWh or BTU savings rather than fixed dollar amount.

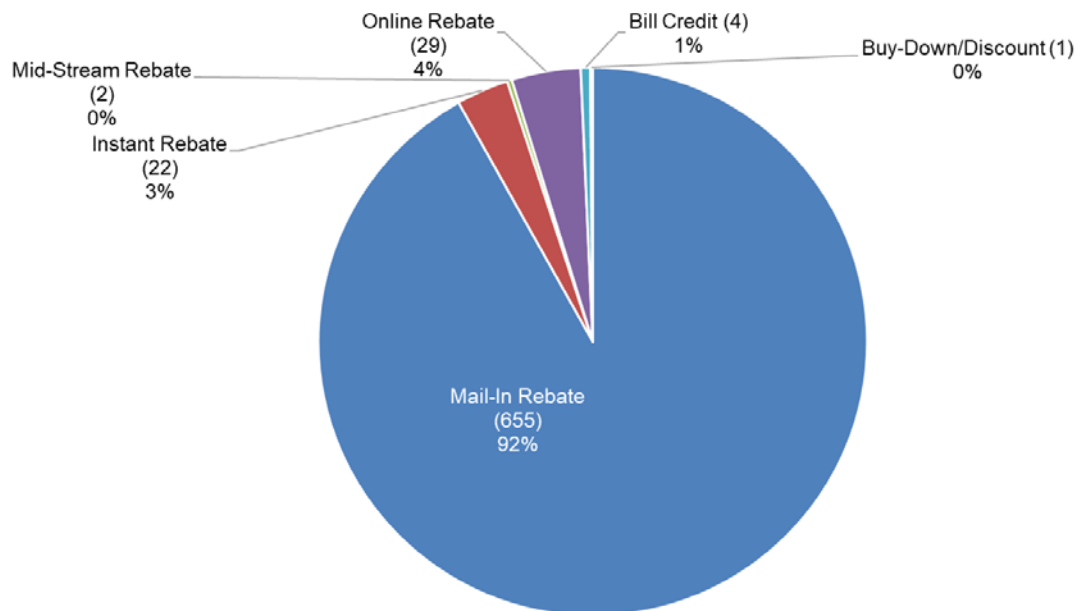

### 2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Product Type (Totals listed in parentheses)

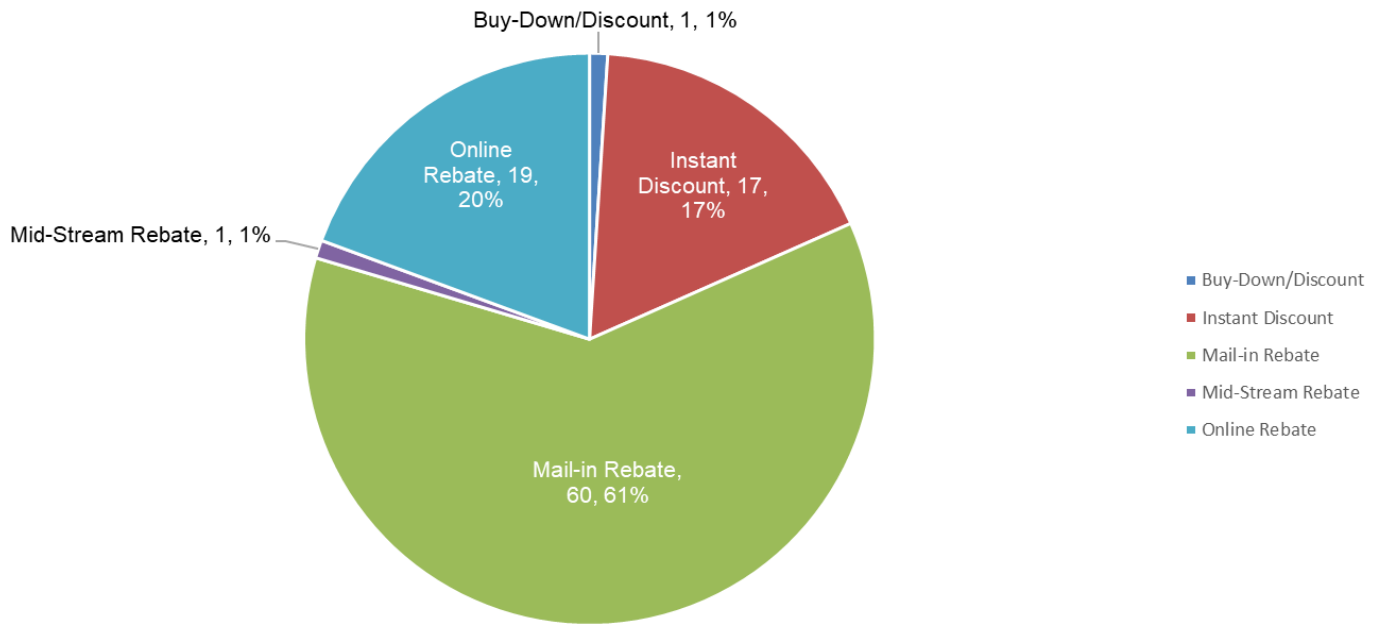

## ENERGY STAR and Energy-Efficient HVAC & Smart Thermostat Promotions by Product Type 2018-2019

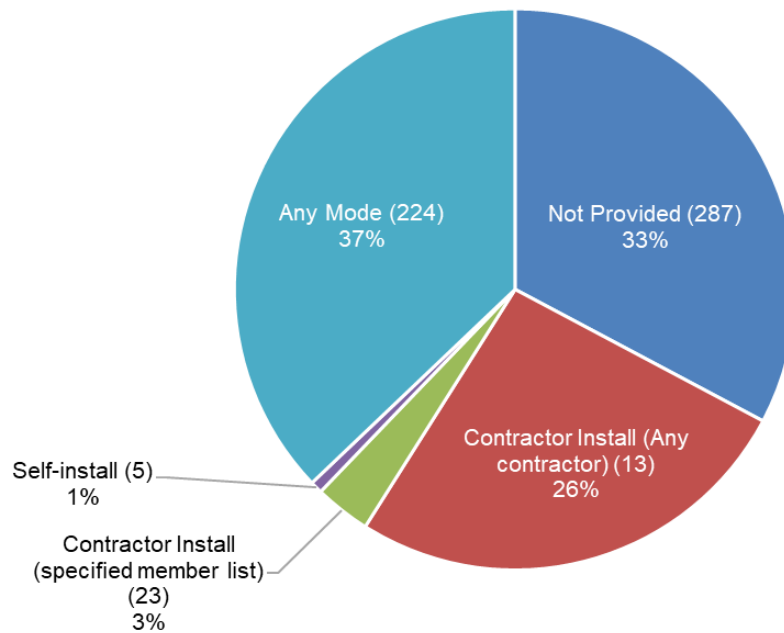

## 2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Incentive Type (Totals listed in parentheses)

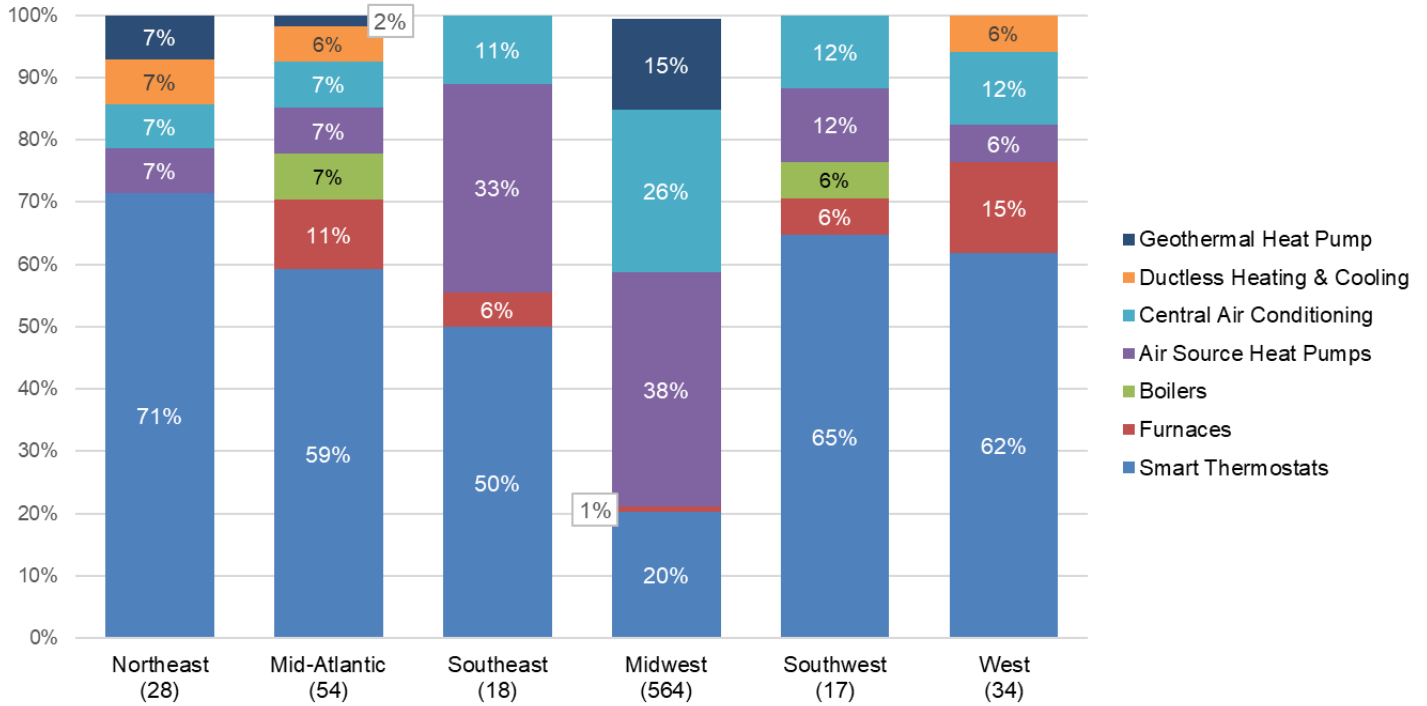

### 2019 Smart Thermostat Promotion by Incentive Type

### 2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Installation Criteria (Totals listed in parentheses)

**2019 ENERGY STAR HVAC & Smart Thermostat Promotions by Type and Region**  
*(Region totals listed in parentheses)*

### HVAC & Smart Thermostat Programs Information

The table below provides information on products being promoted around the country by energy efficiency program sponsors. The information is organized by state. Please contact the program sponsor representative, found in the Partner Contact Directory following this section, to learn more about partnership opportunities. Target population is assumed to be residential unless otherwise noted.

STATE	PARTNER NAME	PROGRAM BUDGET	TARGET POPULATION	PRODUCTS	INCENTIVE AMOUNT	INCENTIVE TYPE	START DATE	END DATE
AZ	Salt River Project	<i>Not provided</i>	Residential	Smart Thermostats	\$25	Instant Discount	Ongoing	
AR	AEP SWEPSCO	\$250K - \$1 Million	100K Residential	Smart Thermostats	\$100	Mail-in Rebate	5/1/2018	Ongoing
AR	CenterPoint Energy	<i>Not provided</i>	Residential	Smart Thermostats	\$50	Mail-in Rebate	1/1/2019	12/31/2019

				Central Air Conditioning - Single Package	\$50/ton - \$65/ton			
				Central Air Conditioning - Split Systems				
				Ductless Heating & Cooling - Mini-Split Air Conditioning	\$75/ton - \$110/ton			
				Furnaces	\$300		1/2/2018	
				Boilers				

ENERGY STAR® Summary of HVAC & Smart Thermostat Programs – August 2019

STATE	PARTNER NAME	PROGRAM BUDGET	TARGET POPULATION	PRODUCTS	INCENTIVE AMOUNT	INCENTIVE TYPE	START DATE	END DATE
PA	PPL Electric Utilities	Not provided	Residential	Smart Thermostats	\$100	Mail-in Rebate	Ongoing	
						Online Rebate		
		\$50K - \$250K	1.2 Million Residential	Central Air Conditioning - Single Package	up to \$150	Mail-in Rebate	6/1/2016	5/31/2021
PA	UGI Electric Utilities	\$250K - \$1 Million	64K Residential	Smart Thermostats	\$50	Mail-In Rebate	6/1/2019	5/31/2024
				Central Air Conditioning - Single Package	\$150			
				Ductless Heating & Cooling - Mini-Split Air Conditioning	\$150-\$250 per ton			
				Furnaces	\$1,500			
SC	Dominion Energy South Carolina, Inc.	Not provided	600K Residential	Air-Source Heat Pump - Single Package	\$300 - \$1,000	Mail-In Rebate	4/1/2018	Ongoing
				Air-Source Heat Pump - Split Systems	\$300 - \$500			
				Central Air Conditioning - Single Package				
				Central Air Conditioning - Split Systems				
TX	AEP SWEP CO	Not provided	Residential	Smart Thermostats	\$100	Online Rebate	Ongoing	
TX	CenterPoint Energy	Not provided	Residential	Smart Thermostats	\$50	Buy-Down/Discount	5/1/2018	Ongoing
VA	Columbia Gas of Virginia	Not provided	Residential	Smart Thermostats	\$50	Mail-in Rebate	1/1/2019	12/31/2021
VT	Efficiency Vermont	Not provided	Residential	Smart Thermostats	\$100	Mail-in Rebate	Ongoing	
		\$250K - \$1 Million	626.6K Residential			Online Rebate		
WA	Bonneville Power Administration	Not provided	Residential	Smart Thermostats	\$50	Mail-in Rebate	Ongoing	
WA	Clark Public Utilities	Not provided	Residential	Smart Thermostats	\$50	Mail-in Rebate	Ongoing	
WA	Puget Sound Energy (Electric)	Not provided	Residential	Smart Thermostats	\$75	Mail-in Rebate	1/1/2019	12/31/2019
WA	Snohomish County PUD	Not provided	Residential	Smart Thermostats	\$75	Online Rebate	Ongoing	
WI	Focus on Energy	Not provided	Residential	Smart Thermostats	\$75	Mail-in Rebate	Ongoing	
WV	Appalachian Power	\$250K - \$1 Million	400K Residential	Smart Thermostats	\$50	Mail-in Rebate	05/01/2014	12/31/2019

## Footnotes: Umbrella Organizations

---

1. Missouri River Energy Services represents the following utilities:
  - IA: Alton, Atlantic, Denison, Hartley, Hawarden, Kimballton, Lake Park, Manilla, Orange City, Paullina, Pella, Primghar, Remson, Rock Rapids, Sanborn, Shelby, Sioux Center, and Woodbine
  - MN: Adrian, Alexandria, Barnesville, Benson, Breckenridge, Detroit Lakes, Elbow Lake, Henning, Hutchinson, Jackson, Lake Park, Lakefield, Luverne, Madison, Marshall, Melrose, Moorhead, Ortonville, St. James, Sauk Centre, Staples, Wadena, Westbrook, Wilmar, and Worthington
  - ND: Cavalier, Hillsboro, Lakota, Northwood, Riverdale, and Valley City
  - SD: Beresford, Big Stone City, Brookings, Burke, Faith, Flandreau, Fort Pierre, Pickstown, Pierre, Vermillion, Watertown, and Winner
2. Heartland Consumers Power District represents the following utilities:
  - IA: Akron, Auburn, Stanhope
  - MN: Grove City, Lake Crystal, Medelia, New Ulm, Truman, Tyler
  - SD: Arlington, Aurora, Bryant, Colman, Estelline, Groton, Hecla, Howard, Langford, Madison, McLaughlin, Miller, Parker, Plankinton, Tyndall, Volga, Wessington Springs, White
3. Minnesota Municipal Power Agency
  - Anoka, Arlington, Brownston, Buffalo, Chaska, East Grand Forks, Elk River, Le Seur, North St. Paul, Olivia, Shakopee and Winthrop

NOTE: Shakopee reports data individually
4. Minnkota Power Cooperative represents the following utilities:
  - MN: City of Alvarado, Bagley Public Utilities, Baudette Municipal Utilities, Beltrami Electric Cooperative, Fosston Municipal Utilities, Hawley Municipal Utilities, North Star Electric Cooperative, Red River Valley Power Association, Roseau Electric Cooperative, Roseau Municipal Utilities, Stephen (City of) Municipal Utilities, Thief River Falls Municipal Utilities, Warren Municipal Utilities, and Wild Rice Electric Cooperative.
5. Efficiency Smart represents the following utilities:
  - DE: Clayton, Middleton, Milford, New Castle, Newark, and Seaford.
  - OH: Beach City, Bowling Green, Brewster, Columbiana, Edgerton, Eldorado, Elmore, Galion, Georgetown, Glouster, Jackson Center, Lakeview, Minster, Montpelier, Napoleon, Newton Falls, Oberlin, St. Mary's, Versailles, Wadsworth, and Wellington.
6. Focus on Energy represents the following investor owned utilities:
  - Alliant Energy, Madison Gas & Electric, We Energies, Wisconsin Public Service, and Xcel Energy
  - For a complete list of participating municipal and electric cooperative utilities check the website: [www.focusonenergy.com/about/participating-utilities](http://www.focusonenergy.com/about/participating-utilities)

## Partner Contact Directory

The table below provides additional information to help connect with energy efficiency program sponsors and find out more information about their incentive programs.
