

# ENERGY STAR CERTIFIED Smart Thermostats

## Venstar - Explorer : T2###

### Specifications

<b>ENERGY STAR Partner:</b>	Venstar Inc.
<b>Service Brand Name:</b>	Venstar
<b>Service Model Name:</b>	Explorer
<b>Service Model Number:</b>	T2###
<b>Thermostat Brand Owner:</b>	Venstar
<b>Thermostat Brand Name:</b>	Venstar
<b>Thermostat Model Name:</b>	Explorer
<b>Thermostat Model Number:</b>	T2###
<b>Additional Thermostat Model Numbers:</b>	T2000, T2050
<b>Family ID:</b>	FAM_1048765_02042019195535_0136140
<b>Standby Power (W):</b>	0.62
<b>Thermostat Heating and Cooling Control Features:</b>	Time of Day Usage
<b>Thermostat Communication Method:</b>	Wi-Fi
<b>Demand Response Summary:</b>	Venstar through our Skyport Cloud Services provides OpenADR compliance for all of the Venstar communicating thermostats with WiFi. These OpenADR compliant products provide solutions for both the Residential and Commercial markets. Skyport Cloud Services OpenADR VEN is a certified DR solution that allows utilities or verified energy partners to push DR signals that include load shedding, price notifications, and price actions to Skyport Cloud connected Venstar thermostats. Skyport Cloud Services allow the utilities or verified energy partners to group thermostats into logical groups and regions to send directed DR events. Skyport Cloud users have the ability to adjust the Maximum Cooling Setpoint, Minimum Heating Setpoints, Offset Settings and Price Trigger settings for DR events. Once a DR event is completed, Skyport Cloud Services, with detailed reporting capability, generates a report signal back to the load management entity for the success rate of the DR event. Venstar communicating thermostats are Title 24 compliant.
<b>Date Available on Market:</b>	2015-05-09
<b>Date Certified:</b>	2018-10-31
<b>Markets:</b>	United States, Canada
<b>ENERGY STAR Certified:</b>	Yes
