

ENERGY STAR CERTIFIED

# Smart Thermostats

## First Alert - ElitePRO S1000 Smart Thermostat : ElitePRO S1000 Smart Thermostat

### Specifications

<b>ENERGY STAR Unique ID:</b>	4481893
<b>ENERGY STAR Partner:</b>	Resideo Technologies, Inc
<b>Service Brand Name:</b>	First Alert
<b>Service Model Name:</b>	ElitePRO S1000 Smart Thermostat
<b>Service Model Number:</b>	ElitePRO S1000 Smart Thermostat
<b>Thermostat Brand Owner:</b>	Resideo Technologies Inc.
<b>Thermostat Brand Name:</b>	Honeywell Home
<b>Thermostat Model Name:</b>	ElitePRO S1000 Smart Thermostat
<b>Thermostat Model Number:</b>	THX1000W1
<b>Additional Thermostat Model Numbers:</b>	THX1000B2
<b>Standby Power (W):</b>	2.19
<b>Thermostat Heating and Cooling Control Features:</b>	External Temperature Detection,Time of Day Usage,Additional Home Temperature Sensor,Geofencing (User Device Based),Other,Additional Occupancy Sensor,Humidity Sensing,Occupancy Sensor on Device
<b>Other Heating and Cooling Control Features:</b>	Wi-Fi Connected Thermostat with 4.3" capacitive touch display, built-in occupancy and light sensors for auto brightness. Offered in white or black. Use with FirstAlert App, configure through PRO app, and manage easily via PRO Portal.
<b>Thermostat Communication Method:</b>	Bluetooth,Other,Wi-Fi
<b>Communication Method Other:</b>	Redlink
<b>Demand Response Summary:</b>	Honeywell Home's connected thermostat family is enabled to respond to Community Energy Care Program (formerly known as Demand Response (DR)) events that utilities call to mitigate certain risks to the grid. These programs ultimately save consumers money while preventing adverse effects on their service. Honeywell Home's thermostats are utilized by a variety of optimization/DR firms that access our thermostats through APIs. Set points can be continuously optimized for a number of factors including real time weather and a home's thermodynamic properties, resulting in additional energy savings. Similarly, our thermostats can be controlled by multiple Demand Response Management Systems (DRMS) systems shedding load at peak periods. Features include pre-cooling and various shed strategies (cycling, temperature off-set, etc.). Our UI and apps allow for consumers to be alerted of events and offer the ability to opt out should the need occur. Feedback on an event's opt-outs, overrides and load shed performance are available.
<b>Date Available on Market:</b>	2025-08-21
<b>Date Certified:</b>	2025-08-22
<b>Markets:</b>	United States, Canada

**ENERGY STAR Certified:**

Yes

## Additional Model Information

ElitePRO S1000 Smart Thermostat, THX1000W1, THX1000B2 These model numbers may be followed by a /U or /W to indicate single or multiple package sale
