

## ENERGY STAR® RESIDENTIAL NEW CONSTRUCTION PROGRAMS

### Dear ENERGY STAR Partner,

Last winter, the EPA released Revision 13 of the ENERGY STAR [Single-Family New Homes \(SFNH\) program](#) and Revision 04 of the ENERGY STAR [Multifamily New Construction \(MFNC\) program](#) for most locations. The EPA has now released the final remaining documents, including:

- Revision 13 of the ENERGY STAR SFNH program in the Caribbean and Pacific:
  - Caribbean Program Requirements, Version 3
  - Pacific Program Requirements, Version 3
  - Pacific Program Requirements, Version 3.2
  - Caribbean and Pacific Rater Design Review Checklist, Version 3 / 3.2
  - Caribbean and Pacific Rater Field Checklist, Version 3 / 3.2
  - Pacific ERI Target Procedure, Version 3
- Revision 04 of the ENERGY STAR MFNC program in the Caribbean:
  - Caribbean Program Requirements, Version 1
  - Caribbean Rater Design Review Checklist, Version 1
  - Caribbean Rater Field Checklist, Version 1

As a reminder, Revisions typically clarify, simplify, and improve the program, rather than increase the overall stringency of the requirements. Partners are permitted to use these Revisions immediately, at their discretion, but must apply them to all homes and apartments permitted on or after January 1, 2025.

**EPA strongly encourages partners to review the [SFNH Caribbean and Pacific Highlights](#) and the [MFNC Highlights](#) documents to understand the most important improvements.**

In addition, the Current Policy Record containing all policy issues is available on the [Policy Clarifications and Changes webpage](#).

If you have any questions, please contact us at [energystarhomes@energystar.gov](mailto:energystarhomes@energystar.gov). Thank you for your work promoting ENERGY STAR.

Best regards,

The ENERGY STAR Residential New Construction Team
