

## ENERGY STAR® RESIDENTIAL NEW CONSTRUCTION PROGRAMS

### Dear California Stakeholders,

CalCERTS has informed the EPA that it will stop operating as a California HERS Provider after August 2, 2024 and will not accept submissions for ENERGY STAR certification after this date. Affected partners should consult with CalCERTS directly for further guidance on closing out active registrations.

Partners should take immediate steps to submit all future California homes and apartments seeking ENERGY STAR certification through another EPA-recognized Home Certification Organization (HCO) operating in California, which currently includes:

- [CHEERS](#), in partnership with the National Energy Registry

The ENERGY STAR website offers more information about [Home Certification Organizations](#).

Best regards,

EPA's ENERGY STAR Residential New Construction team
