Doug Anderson  
Program Manager, ENERGY STAR for Exterior and Interior Storm Windows  
U.S. Environmental Protection Agency

Doug,

This is just a very short letter in support of the proposed ENERGY STAR® program and specification for Exterior and Interior Storm Windows. I have reviewed the additional analysis conducted for draft 2, and I agree with the conclusions regarding emissivity levels, solar transmittance in the different regions, and interior storm windows in the south. As such, I support the changes made to the draft specification, including the additional details regarding product verification. I believe the program is ready, and I look forward to seeing it launch!

Best regards,

Thomas D. Culp, Ph.D.
