

Melissa--

I am writing on behalf of the Mass Save MUG Working Group (made up of electric utilities and energy efficiency service providers, including Cape Light Compact, Eversource, Nationalgrid, and Unitil) to encourage the EPA to allow all qualifying Refrigerator-Freezer products that meet the following Most Efficient requirements "Refrigerator-Freezers\* V5.0:  $\leq 637$  kWh per year; at least 15% better than the amended Sept 15, 2014 Federal standard" to be included as a Most Efficient product, specifically Top Freezer refrigerator models.

Sincerely,

Laurie Acone of Nationalgrid, Briana Kane of Cape Light Compact, Kevin Parse of Unitil, and Kristen Pomer of Eversource

Briana C. Kane
