Mr. Doug Anderson
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue NW
Washington, DC 20460

Dear Doug:

RE: Final Draft, Version 1.0 ENERGYSTAR® for Exterior and Interior Storm Windows Specification

As you know, QUANTA Technologies, Inc. manufactures and markets low-e storm windows for both residential and commercial applications. Moreover, we have been a strong supporter and advocate of the EPA's efforts with respect to the proposed implementation of an ENERGY STAR specification for this product category.

We have reviewed the final changes to the specification which were issued with your letter of July 16, 2018, along with EPA's response to the comments submitted by numerous stakeholders, and are in full support of proceeding with the proposed specification. We believe that the ENERGY STAR designation for low-e storm windows will have a substantial impact in building awareness of this technology, and will greatly assist consumers who are evaluating multiple options to improve their window performance.

Thank you for your efforts and those of the EPA in achieving this noteworthy milestone.

Best regards,
