It is expected that there will be 50 billion connected things by 2020.
1 in 8 households actually program their thermostat

US Energy Information Administration, 2015 Residential Energy Consumption Survey
Imagine a home that listens and responds to your every command.

No buttons. No clutter. No effort.
ecobee4 smart thermostat

Automates your comfort with a room sensor, and lets you do more with your day with built-in Alexa Voice Service.
Ecobee Data for the month of July 2017

Voice Engagement

Although knowledge based questions are asked more often, music playback on the ecobee4 has been increasing over time.
Voice Engagement

Hourly Alexa usage distribution on ecobee4 has remained consistent over the last 3 months.
Works with your smart home

Thanks to our open API, ecobee thermostats seamlessly integrate with other home automation devices you own.

"Alexa, ask f. p. l. how I can lower my bill?"
"Alexa, open f. p. l. and tell me how I can lower my energy bill?"
"Alexa, ask f. p. l. for the tip of the day?"

Description
Explore a new way to connect with Florida Power & Light Company through the FPL skill. Get energy-saving tips to help you save energy and money—all with the power of your voice.

Just say, "Alexa, open FPL." Once you've opened the skill, here are some voice commands that you can use:
- How can I lower my energy bill?
- What's your energy-saving tip of the day?

To get started, simply enable the skill.

Only 18% of households would consider buying a smart thermostat. But when offered a rebate of $100 that increases to more than 40%.
SMART THERMOSTATS

FEATURES

- Learn your temperature preferences and establish a schedule that adjusts to energy-saving temperatures when you’re asleep or away.
- Provide home energy use data that you can track and manage.
- Give you control of home heating and cooling remotely through your smartphone.

CERTIFIED

- ENERGY STAR certified smart thermostats are third-party certified to do the following:
  - Track and report equipment use and temperature data to the homeowner.
  - Quickly enter a low-power standby mode when inactive.
  - Save energy based on field data collected from over one thousand homes over an entire year.
let's be great
