### State Spotlight

"In 2015, Hawai'i broke new ground by becoming the first state to establish a 100% clean energy mandate to meet our electricity needs by 2045. Emphasizing the use of ENERGY STAR-certified equipment and appliances in our homes and businesses is crucial to us achieving this lofty energy goal as it has been calculated that we won't reach that goal without significantly boosting energy efficiency. The ENERGY STAR program plays a key role in shaping our 100% clean energy future." Brian Kealoha, Executive Director, Hawai'i Energy
