

# DISTRICT OF COLUMBIA

The simple  
choice for  
energy  
efficiency.

April 2022

## Families and businesses are saving with the help of ENERGY STAR®

District of Columbia is home to **140** businesses and organizations participating in U.S. EPA's ENERGY STAR program:

**1** company supporting independent certification of ENERGY STAR products, homes, and apartments

**9** companies building ENERGY STAR certified homes and apartments and many businesses, schools, governments, and faith-based groups using ENERGY STAR to reduce energy waste.

### ENERGY STAR Activity in District of Columbia

**309 thousand customers** served by ENERGY STAR utility partners in 2021

**2,813 buildings** (almost 492 million square feet) benchmarked using EPA's ENERGY STAR Portfolio Manager in 2021

**1,700 homes and apartments** earned the ENERGY STAR to-date

**478 buildings** earned the ENERGY STAR to-date, including 3 schools, 9 hotels, 1 hospitals, and 393 office buildings.

- Portland Cement Association
- Urban Land Institute

#### Select Certified Buildings and Plants ([Full List](#))

- One Franklin Square (Washington)

1445 NY Avenue, Washington, DC. First ENERGY STAR certified in 2010.

### State Spotlights

"ENERGY STAR and our shared drive to create greater energy efficiency is ingrained in BOMA's programs and services and has helped us build our high-performance brand. The EPA is an indispensable partner providing valuable benchmarking tools and objective data that leads directly to generating increased net operating income and building asset values while also contributing positively to sustainability goals. We have been honored to be a long-time partner." - Henry Chamberlain, President and COO, BOMA International of Washington, District of Columbia.

"ENERGY STAR is a foundational resource for energy efficient and high-performance buildings. ULI is proud to be a partner as we make the business case for green buildings to our real estate members and across the built environment. We believe that reducing carbon increases building value, and our collaboration with ENERGY STAR supports that case across building types and stakeholder groups nationwide." - Marta Schantz, Senior Vice President, Urban Land Institute of Washington, District of Columbia.

Fannie Mae, a federally sponsored financial institution for Multifamily housing, expanded on its green financing programs, including for single-family homes, raised awareness of the benefits of benchmarking and certification in the housing market and reached thousands of owners and tenants.
