Develop your marketing “voice.”

- Do you have a strong value proposition?
- Who is your buyer?
- What do they care about?
- How do your homes address that?
- What is the economic case?
- What is the emotional case?
Do we have a strong value proposition?

There are only two ways to make money:

1. Be the low cost producer.
2. Have something no one else has.

We try to do both.
Who is our buyer?

She is a 35 year old woman who drives a Prius, shops at Whole Foods and has “Boulder-like” tendencies.

“The green consumer revolution has been led by women aged between 30 and 49 with children and better-than-average education. They are motivated by a desire to keep their loved ones free from harm and to secure their future.”

Who is our buyer?

We believe she:

• Is a strong CEO for the family.
• Is the primary shopper and makes buying decisions.
• Operates on a balance of information and emotion.
• Confidently pays more for things she believes offer superior value and performance.
Who is our buyer?

We believe she:

• Buys brands and products she trusts.
• Buys organic and GMO-free food.
• Pays a premium for brands she trusts.
• As a consummate consumer, she looks for authenticity, honesty, credibility from the brands she chooses.
• Loves local.
Who is our buyer?

We believe she:

• Wants to be seen by her peers and loved ones as knowledgeable and adequate.

• Stays abreast of “best practices” for her loved ones via social media, the web, print media (especially magazines) and advertising.
Who is our buyer?

We believe she:

• Reads labels. We can tell her what is NOT in her home.

• We can build her a home that is cleaner and better AND teach her how to keep it that way.

• She will be a “customer for life” if we become her trusted advisor.
Who is our buyer?

We believe she:

- Is suspicious of the health establishment.
- Shops in the “healing aisles” of Whole Foods and Vitamin Cottage.
- Is open to alternative medicine.
- Will embrace a healthier home if we learn how to communicate this effectively.
- Seeks control, empowerment and peace of mind by knowing she has done all she can for her loved ones.
What does she care about?

She is more likely to buy a home from us if we understand and align with her values. Emphasize:

- **Authenticity**: third party credibility.
- **Facts**: support her reason to believe.
- **Us as a resource for doing “more and better”** for her loved ones including **doing her part to secure the world of the future for her children.**
What does she care about?

We believe she:

• Takes charge of the health of her family.

• Desires both improvement of health and the likelihood of prevention.
What does she care about?

We believe she:

• Buys green and energy efficient features to do her part to secure the future of her loved ones.

• Will vote her dollars with her values if the price is reasonable and the benefit is clear.
How do our homes meet her needs?

Authenticity and credibility.
The only authentically verified high performance home of its type. Something no one else has.

- EPA Indoor AirPlus
- EPA WaterSense
- EPA EnergyStar
- DOE Zero Energy Ready Home
- USGBC LEED for Home
How do our homes meet her needs?

• Seeks control, empowerment and peace of mind by knowing she has done all she can for her loved ones.
What is the economic case?

The Total Cost of Home Ownership
What is the economic case?

The Total Cost of Home Ownership
What is the emotional case?

Convert the features in the home to the emotional benefit that your customer is seeking.
Selling it.

- Highly trained sales staff
  - Outside sales training on basics of selling
  - Constant in-house training on our product differentiators
  - Attendance at high performance home conferences like EEBA
Selling it.

Great models support the emotion of buying.
Show that there is a meaningful and tangible benefit.
The evolution of Efficiency.

Yes a Thrive home—with it’s trademark 9 ½-inch walls, lower utility bills, and countless other efficient solutions—is great. AND:

*Our real power comes from investing in tomorrow’s technologies instead of yesterday’s.*

There are many reasons to choose a Thrive Home. The bigger question is, why wouldn’t you?
Sales office messages
Don’t go it alone.

Certifications

Awards

Industry partnerships
In conclusion: What is Thrive’s market position?

Efficient: We are and will remain the market leader in energy efficiency.

Healthy: We are the trusted advisor to our customers regarding health in the home.

Local: We are neighbors who care.
In conclusion:
What is Thrive’s market position?

We are the low cost producer of homes that no one else offers.

We build homes that do more:
• Our homes help pay for their own energy.
• Our homes make people healthier.
• Our homes give you the peace of mind of knowing that you have done all that you can for the people you love.
But most of all Thrive is about our customers.

We are fundamentally environmentalists. We just happen to deal with the human environment.

We help people to thrive and prosper.

In conclusion: What is Thrive’s market position?
I hope in some way our journey can help you along what I call “the last mile.”

• We have the technology to build great homes.
• Learning to market and sell to the mainstream home buyer is our movement’s “last mile.”
