

ENERGY STAR® NEW HOMES

Dear ENERGY STAR Residential New Construction EEPS partner,

Our records indicate that your organization has yet to complete the [annual EEPS update](#) required to maintain active partnership status with EPA's ENERGY STAR Residential New Construction program.

If you have a residential energy efficiency program that incorporates ENERGY STAR residential new construction, please be sure to complete the update no later than this Friday, March 11, 2022 at www.surveymonkey.com/r/2022sponsorupdate. Failure to complete the update by this extended deadline will initiate the process for inactivation of your status as a sponsor ("Home EEPS") of the ENERGY STAR Residential New Construction program.

2022 EEPS Update

If you do not have a relevant program, please reply to this email with a brief update rather than being non-responsive.

Best regards,
The ENERGY STAR Residential New Construction team

ENERGY STAR® is the simple choice for energy efficiency. For 25 years, EPA's ENERGY STAR program has been America's resource for saving energy and protecting the environment. Join the millions making a difference at energystar.gov.
