Doug,

Thank you for the opportunity to comment on the draft final criteria for the ENERGY STAR® Version 7.0 Windows, Doors, and Skylights program. I will keep these final comments very short and simply confirm that I remain in strong support of the proposed new criteria, including the small adjustment made in the north central zone. I applaud the in-depth technical analyses that justify the final criteria, the detailed responses to industry comments, and the continued transparency. Congratulations, and I look forward to implementation of the final criteria in 2023.

Thank you and best regards,
