

Proposed Recognition Criteria Ceiling Fans

Scope

Included products. Residential ceiling fans, as defined below, are eligible for ENERGY STAR® Most Efficient recognition in 2014.

Residential Ceiling Fan: A non-portable device designed for home use that is suspended from the ceiling for circulating air via the rotation of fan blades.

Excluded products. The following products are not eligible for ENERGY STAR Most Efficient recognition in 2014:

- Hugger fans

Recognition Criteria

1) Product must be ENERGY STAR certified consistent with applicable ENERGY STAR Partner Commitments and the requirements set forth in the Version 3.0 ENERGY STAR Program Requirements Product Specification for Ceiling Fans. Product performance must be certified by a certification body recognized by the U.S. Environmental Protection Agency (EPA).

2) Efficiency (cfm/W): ≥ 170 at high speed, ≥ 270 at medium speed, ≥ 400 at low speed.

Recognition Period

EPA will add qualifying models to the ENERGY STAR Most Efficient 2014 product list for ceiling fans from January 1, 2014 through December 30, 2014. The ENERGY STAR Most Efficient 2014 designation may be used in association with models recognized during this period for as long as the model remains on the market.
