

## Proposed Recognition Criteria Consumer Refrigeration Products

### Scope

**Included products:** Consumer refrigeration products are eligible for ENERGY STAR® Most Efficient recognition in 2024.

**Excluded products:** The following products are not eligible for ENERGY STAR Most Efficient recognition in 2024:

- All-refrigerators. At the present time, standard-size all-refrigerators are not eligible for ENERGY STAR Most Efficient 2024 recognition.
- Coolers. At the present time, coolers are not eligible for ENERGY STAR Most Efficient 2024 recognition.

### Recognition Criteria

- 1) Product must be ENERGY STAR certified consistent with applicable ENERGY STAR Partner Commitments and the requirements set forth in the ENERGY STAR Program Requirements Product Specification for Residential Refrigerators and Freezers, Version 5.1. Product performance must be certified by a certification body recognized by the U.S. Environmental Protection Agency (EPA).
- 2) For standard-size refrigerator-freezers and freezers, products must have an Annual Energy Consumption (AEC) of less than or equal to 637 kWh per year.
- 3) For standard-size refrigerator-freezers other than top freezers<sup>1</sup>, product must be at least 27% more efficient than federal requirements (see table below), as determined by the DOE test procedure in 10 CFR 430 Subpart B, Appendix A. For standard-size chest freezers, product must be at least 15% more efficient than federal requirements, as determined by the DOE test procedure in 10 CFR 430 Subpart B, Appendix B. For standard-size upright freezers and compact freezers, product must be at least 20% more efficient than federal requirements, as determined by the DOE test procedure in 10 CFR 430 Subpart B, Appendix B. For compact refrigerators and refrigerator-freezers, product must be at least 30% more efficient than federal requirements, as determined by the DOE test procedure in 10 CFR 430 Subpart B, Appendix A.

### Recognition Period

EPA will add eligible models to the ENERGY STAR Most Efficient 2024 product list for refrigerators from January 1, 2024, through December 31, 2024. The ENERGY STAR Most Efficient 2024 designation may be used in association with models recognized during this period for as long as the model remains on the market.
