

Cooling Outreach with ENERGY STAR®

Dear ENERGY STAR Partners,

The cooling season is almost upon us. Just a reminder that we have a lot of “cool” advice and resources for engaging your audiences and helping them save energy and stay comfortable when it gets hot.

Visit the [Keep Your Cool with ENERGY STAR](#) section of the Marketing Materials page for:

- Cooling messaging / tips list
- Cooling fact sheet
- Ways to Save Tips web service (including all our cooling tips).

Your customers, your employees and other audiences will value your help this summer, keeping them cool and comfortable while they save energy and money and protect the environment.

Please let us know if you have any questions, and thank you for joining us in welcoming in the cooling season with ENERGY STAR!

The ENERGY STAR Communications Team

ENERGY STAR® is the simple choice for energy efficiency. For more than 25 years, people across America have looked to EPA's ENERGY STAR program for guidance on saving energy, saving money, and protecting the environment. Behind each blue label is a product, building, or home that is independently certified to use less energy and cause fewer of the emissions that contribute to climate change. Visit www.energystar.gov today.
