

ENERGY STAR Single-Family New Homes ENERGY STAR Multifamily New Construction Design Temperature Exception Request Form

Purpose:

This form is to be used to formally request an exception to the maximum cooling season design temperature and minimum heating season design temperature limits defined in the Design Temperature Limit Reference Guide for ENERGY STAR Single-Family New Homes and ENERGY STAR Multifamily New Construction, available at: www.energystar.gov/hvacdesigntemps.

Instructions:

1. Complete all fields below. The exception request will not be considered if all fields are not completed.
2. Use the button at the bottom of this form to submit the completed form as an email attachment to: energystarhomes@energystar.gov.
3. If upon review EPA provides an allowance, then provide this allowance to the Rater for any home or dwelling / sleeping units in a building that will be ENERGY STAR certified using this allowance. Note that the allowance will be specific to a designer, County, and State, and will expire one year after the date of approval.
