

ENERGY STAR Commercial Food Service Webinar Series

ENERGY STAR Day Promotion and other CFS Tools

Tuesday, September 1, 2020

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Introduction to monthly CFS Webinar Series

- Webinars are an Opportunity for Partners/Stakeholders:
 - To hear news on the latest CFS events, activities, and initiatives at ENERGY STAR
 - To learn about program engagement resources and tips
 - To engage with ENERGY STAR and each other on industry topics and energy-savings
 - To provide feedback on any information gaps and inform the development of new resources

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Near-term ENERGY STAR CFS activities

- Fall Newsletter – this month!
- CFS landing page updates – coming soon!
- CFS equipment calculator updates – coming soon!
- CFS utility midstream program resources – by late 2020!
- Active specification revisions:
 - Final Version 3.0 Commercial Dishwasher specification
 - Version 5.0 Commercial Refrigerators and Freezers Discussion Guide
 - Version 3.0 Commercial Ovens Draft 1
- Active scoping efforts:
 - Commercial induction cooktops and ventilation
- Webinar Series
 - Next webinar **Wednesday** October 7, at 1 PM ET.

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Poll Question # 1

- Which stakeholder group do you identify as?
 - Product Brand Owner
 - Dealer/Distributor
 - EEPS/Utility
 - Program Implementer
 - Association
 - Restaurant Operator
 - Other

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Poll Question #2

- Has your organization gone above and beyond your typical business practice and participated in efforts to help bring the benefits of energy savings to businesses, communities, and individuals who need them most?
 - Yes
 - No

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Poll Question #3

- What efforts has your organization participated in to help bring the benefits of energy savings to those who need them most?
 - Working/supporting foodbanks or health institutions
 - Supporting restaurant recovery efforts
 - Partnerships with local community action programs
 - Product giveaways
 - Other initiatives that help get energy-saving products in the hands of those who need them most
 - My organization has not participated in any efforts along these lines.

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Webinar Outline

- ENERGY STAR Day 2020 Special Promotional Opportunity
- ENERGY STAR Day 2020: Promotional Instructions, Messaging, and Materials
- Spotlight on popular ENERGY STAR CFS tools
- Tips for sharing CFS tools and resources on your website
- Closing remarks

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

ENERGY STAR Day 2020: Special Promotional Opportunity

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Recognizing Partner Efforts to Help Bring Benefits of Energy Savings to Those Who Need Them Most

This ENERGY STAR Day, we are proud to recognize partner efforts to help bring the benefits of energy savings to businesses, communities, and individuals who need them most.

Helping Americans Save Today, Save Tomorrow, and Save For Good.

Send us your stories by September 14

Send to cfs@energystar.gov

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Share Your Story with EPA

- Stories should be **no more than 200 words** describing the programs and/or initiatives your organization offers
- Please also include **photos**, if you have them, and a high-resolution file of your organization's **logo**.
- Example **initiatives** include:
 - Working/supporting foodbanks or health institutions
 - Supporting restaurant recovery efforts
 - Partnerships with local community action programs
 - Product giveaways
 - Other initiatives that help get energy-saving products in the hands of those who need them most

Send us your stories by September 14

Send to cfs@energystar.gov

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

EPA Recognition and Outreach Support

- We will feature your organization's efforts on the ENERGY STAR Day [landing page](#) and drive traffic to the page through digital advertising.
- Along with providing this recognition, the ENERGY STAR Day landing page will include a link to ENERGY STAR's CFS page to highlight opportunities and resources for food service operators.

Database for Incentives and Joint Marketing Exchange (DIME)

- Online, searchable tool to help manufacturers and retailers identify incentive and marketing opportunities for promoting ENERGY STAR certified products, and to enable all partners to coordinate with the appropriate contact from other partner organizations on promotional opportunities.

The screenshot shows the DIME database interface. At the top, there are filters for 'All products', 'State: California (156)', 'Incentive Type: Mid-Stream Rebate (86)', and a 'Find Incentives' button. Below these are several categories of products with checkboxes and counts, such as 'Appliances', 'Commercial Food Service', 'Heating & Cooling', 'Office Equipment', 'Electronics', and 'Building Products'. A 'Filter By Partner' section is visible at the bottom left of the filter area.

The main content area displays a list of incentives for 'Pacific Gas and Electric Company (PG&E)'. Each entry includes the product name, the incentive type (Mid-Stream Rebate), the amount, and the validity period (01/01/2018 - 12/31/2020). Each entry also includes a description of the offer, contact information for Tambua, Ray (R1TR@pge.com, 415-973-4907), and a 'Show Zip Codes' link.

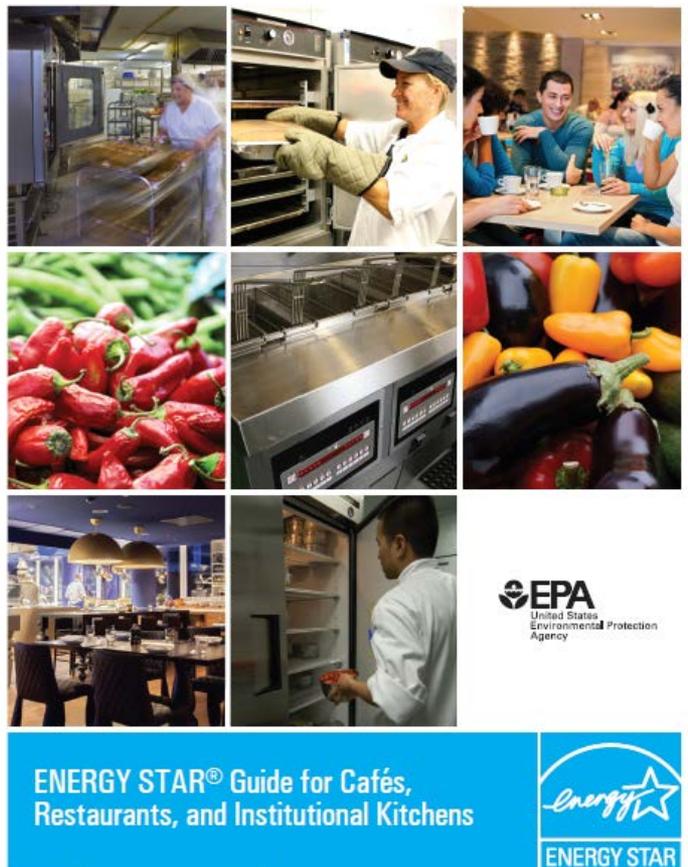

| Product | Incentive Type | Amount | Validity Period |
|--------------------------------------|-------------------|---|-------------------------|
| Commercial Dishwashers | Mid-Stream Rebate | \$600 | 01/01/2018 - 12/31/2020 |
| Commercial Fryers | Mid-Stream Rebate | Electric: \$650/unit Gas: \$749/unit | 01/01/2018 - 12/31/2020 |
| Commercial Griddles | Mid-Stream Rebate | Electric: \$150/linear foot Gas: \$100/linear foot | 01/01/2018 - 12/31/2020 |
| Commercial Hot Food Holding Cabinets | Mid-Stream Rebate | Half-size (<15 cu ft): \$200/unit Full-size (>15 cu ft): \$750/unit | 01/01/2018 - 12/31/2020 |

WAYS TO SAVE TIPS

FIND SAVINGS AND REBATES IN YOUR AREA

Use the ENERGY STAR Rebate finder to look for special offers or utility rebates on ENERGY STAR certified products. These offers are sponsored by ENERGY STAR partners or local utilities. Partners also occasionally sponsor recycling incentives for the proper disposal of old products.

CHOOSE AN ENERGY STAR CERTIFIED REFRIGERATOR

Thanks to recent improvements in insulation and compressors, today's refrigerators use much less energy than older models. An ENERGY STAR certified refrigerator can maximize your energy and dollar savings without sacrificing the features you want. If all refrigerators sold in U.S. were ENERGY STAR certified, energy bill savings would grow to \$700 million and 9 billion lbs of annual greenhouse gas emissions would be prevented.

RECYCLE YOUR OLD REFRIGERATOR

If you have an older refrigerator in your basement or garage, it could be costing you nearly \$110 per year to run it. Recycling it has the added advantage of ensuring that the refrigerants and other components are removed and properly recycled. More than 60 million refrigerators and refrigerator-freezers in the U.S. are over 10 years old, costing consumers \$4.4 billion a year in energy costs.

FLIP YOUR FRIDGE TO ENERGY STAR

Make a commitment to Flip Your Fridge to an ENERGY STAR certified model. If all old refrigerators in the U.S. were replaced with ENERGY STAR certified models, Americans would save more than \$330 million in energy costs and prevent more than 5.5 billion lbs of greenhouse gas emissions annually, equivalent to the emissions from approximately 550,000 vehicles or the annual electricity use of more than 300,000 homes.

KEEP YOUR REFRIGERATOR DOOR CLOSED

Minimize the number of times you open your refrigerator. Plan accordingly so you don't have to leave the door open for prolonged periods of time. An open door allows warm, moist air in, which makes the compressor work harder. The average refrigerator is opened 33 times a day.

SAVE TODAY. SAVE TOMORROW.
SAVE FOR GOOD.

Web Tools – Application Programming Interface (API) Features of Product Finder

- APIs allow third-parties to automatically pull in ENERGY STAR certified product information from EPA to their databases and websites
- Updated daily
- Custom filter options allow users to select the subset of ENERGY STAR products that align with their promotions
- Dataset also available for export via excel, csv, etc.

ENERGY STAR Certified Product Data Sets and APIs

Product Data Sets

In addition to the consumer product finders for ENERGY STAR certified models, EPA maintains 50+ related product data sets at data.energystar.gov that are updated daily. The interface for these data sets allow users to generate a variety of reports, to create accounts for saving and sharing their work and to export data in a variety of different formats. EPA offers a [guide](#) on how to analyze these data sets and create data visualizations.

Product Finder API

Developers can access the information in these data sets via API at data.energystar.gov/developers and link to other databases, build apps, and more. More information about updates to data sets and EPA's approach to API versioning is available [here](#).

Keep Up with Changes

Want to know about changes to the ENERGY STAR data sets and API? Want to connect with other developers who are using the API? Sign up for the ENERGY STAR Products API Google Group.

Examples from ENERGY STAR Partners

Qualified Combination Ovens

Qualifying gas combination oven/steamer models must have a tested steam mode cooking-energy efficiency of $\geq 38\%$ and convection mode cooking energy efficiency of $\geq 44\%$ utilizing ASTM F2861, and meet the idle rate requirements in Table 1. Qualifying electric combination oven/steamer models must have a tested steam mode cooking energy efficiency of $\geq 50\%$ and convection mode cooking energy efficiency of $\geq 70\%$ utilizing ASTM F2861, and meet the idle rate requirements in Table 1.

NOTE: Program criteria are subject to change. Check your utility rebate application for terms and conditions, and effective program dates.

| Company | Model Number | Size (Steam Pans) | Fuel Type | Preheat Energy (Btu or kWh) | Convection Mode | | | | Steam Mode | | |

Closing Poll Questions

- **Does your organization's website currently feature any ENERGY STAR CFS tools?**
 - Yes
 - No
- **What is the biggest barrier to featuring ENERGY STAR tools and resources on your organization's website?**
 - None! My organization already features ENERGY STAR tools and resources.
 - Lack of awareness of available ENERGY STAR CFS tools and resources.
 - Time and effort required to make changes to my organization's website.
 - The ENERGY STAR tools and resources available would not benefit my organization or fit onto my organization's website.
 - Other reasons

SAVE FOR GOOD.

Next Webinar Questions Continued

Which tool or resource are you most likely to be looking for from the CFS landing page?

- Product specification and other product-specific information (but not the Product Finder)
- Product Finder
- Rebate Finder
- Dealer/Distributor Finder
- Ask the Expert Blog Posts
- ENERGY STAR Award Winners from the CFS industry
- Sell sheets, Restaurant Guide, Case Studies, Dealer Toolkit, and/or the CFS Calculator
- Instructions on promotional opportunities (ENERGY STAR Day, Earth Day)
- Other
