Dear ENERGY STAR Brand Owner Partner or Other Interested Stakeholder:

The U.S. Environmental Protection Agency (EPA) has posted a number of new tools that we hope you find useful.

First, the refreshed [ENERGY STAR Products Partner Resources](#) page offers resources for our partners who manufacture, sell and promote certified products that protect our environment, while helping consumers save energy and money. On this refreshed site, you will find information on how to:

- [Join the program](#)
- [Get products certified](#)
- [Promote certified products](#)
- [Improve your sales effectiveness](#)
- [Get recognized for your contributions](#)

The Products Partner Resources site allows you easy access to the My ENERGY STAR Account (MESA) portal, where you can access your company's account information and easily update your organization's contact information. You will also find updated product specifications, partner announcements and marketing tools and resources. It is your one-stop-shop for everything you need to support your partnership with ENERGY STAR.

EPA has also posted the [2019 ENERGY STAR Product Development Plan](#) that highlights planned revisions, amendments, and new specification launches for the year and a companion document, [Quarterly Update ENERGY STAR Specification Development January-March 2019](#).

Thank you for your continued support of the ENERGY STAR program.
