ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit www.energystar.gov.

Dear ENERGY STAR® Residential Dishwashers Stakeholders:

The U.S. Environmental Protection Agency (EPA) would like to remind stakeholders that the effective date for the Version 7.0 ENERGY STAR Residential Dishwashers specification is July 19, 2023. On this date, only products certified to Version 7.0 and submitted by EPA-recognized certification bodies (CBs) to EPA using the Version 7.0 web service will display on our list of certified models.

Please contact EPA at appliances@energystar.gov with any questions regarding the specification. CBs should direct questions concerning the submittal of Version 7.0 certified residential dishwashers to Certification@energystar.gov.

Thank you for your support of the ENERGY STAR program.
