

HAVE FUN IN THE SUN AND SAVE CHOOSE ENERGY STAR® CERTIFIED POOL PUMPS

Pool pumps that have earned the ENERGY STAR are independently certified to save energy, save you money, and help prevent climate change.

- ★ Use 70% less energy than standard pool pumps
- ★ Save you \$280 - \$340 per year in energy bills
- ★ Run quieter and prolong the life of your pool's filtering system
- ★ Use reliable two speed or variable speed technology

Conventional pool pumps use the same pump speed regardless of the task assigned, wasting energy. Filtration, which is what pool pumps are predominately used for, requires half the flow rate of pool vacuuming. Using much less energy through much lower speeds, ENERGY STAR certified pool pumps are available in two types:

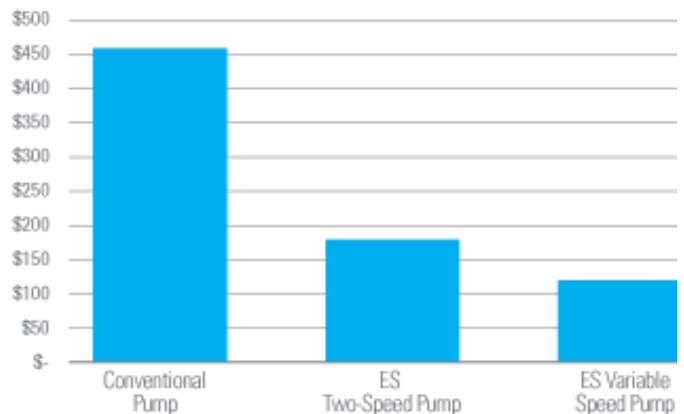

- Two-speed models that use a low speed for filtration and a high speed for cleaning.
- Variable speed models that can be programmed to deliver the right flow for multiple tasks.

TAKE ADVANTAGE OF UTILITY INCENTIVES

Many utilities offer incentives for purchasing an ENERGY STAR certified pool pump. The table below shows several examples from across the country. Check with your local utility for more details.

State	Utility	Incentive
AZ		\$200
CA		\$100
CO		\$100
FL		\$300
MA		\$200
NY		\$400
PA		\$150
TX		\$300

ANNUAL ENERGY COSTS FOR POOL PUMPS

SAVE THOUSANDS OF DOLLARS

An ENERGY STAR certified pool pump can save you thousands of dollars over the lifetime of the product. These savings mean an investment in a certified pool pump will pay for its additional costs in less than 2 years.

Table 1: ENERGY STAR Certified Pool Pump Savings

Type of Pool Pump	Annual Savings (\$)	Annual Savings (kWh)	Lifetime Savings (\$)	Payback (years)
Variable Speed	\$340	2,800	\$2,200	1.6
Two Speed	\$280	2,300	\$2,000	0.8
