

# Americas: Tate & Lyle's US plant lauded for energy efficiency

By **FNI Team** - March 30, 2016

---

Tate & Lyle's Lafayette South corn wet mill in Indiana, US has been awarded Energy Star certification by the US Environmental Protection Agency (EPA) for its energy efficiency performance in 2015.

This certification is awarded by the EPA annually and Tate & Lyle's plant in Lafayette was one of nine plants to earn certification for the first time.
