

See Clearly with the Right Windows

www.energystar.gov/hpwes

Do you have:

-  Single pane windows? Double pane windows with broken seals? Metal frames?
-  Condensation or frost on windows and sills?
-  Air leaks or drafts around windows?
-  Inordinate noise?

Problems like these could mean your home isn't working as it should.

ENERGY STAR certified windows, doors, and skylights can reduce your energy bills by a nationwide average of 12% while helping protect the environment.

– U.S. EPA

Get more from your home with Home Performance with ENERGY STAR.

A qualified local expert will conduct a Home Performance Assessment including specifically looking at your home's windows to:

- Check for proper function
- Evaluate performance and energy efficiency
- Determine whether to repair, replace or install storm windows

When it's time for an improvement, your local expert will:

- Determine your climate zone and corresponding ENERGY STAR products
- Properly install each window
- Be backed by third-party quality assurance

Home Performance Assessment Checklist

- ✓ Homeowner Interview
- ✓ Energy Bills Review
- ✓ Home Evaluation
- ✓ Safety Check & Testing
- ✓ Home Improvement Recommendations

ENERGY STAR® is the simple choice for energy efficiency. For more than 20 years, people across America have looked to the ENERGY STAR program for guidance on saving energy, saving money, and protecting the environment. Home Performance with ENERGY STAR is a systematic approach to improving energy efficiency and comfort in homes, while reducing the greenhouse gas emissions that contribute to climate change. Join the millions already making a difference at energystar.gov.
