ENERGY STAR®, a U.S. Environmental Protection Agency program, helps us all save money and protect our environment through energy efficient products and practices. For more information, visit [www.energystar.gov](http://www.energystar.gov).

Dear ENERGY STAR® Ventilating Fans Brand Owner:

The U.S. Environmental Protection Agency (EPA) would like to remind you that in order for Bathroom and Utility Room Ventilating Fans to gain recognition as ENERGY STAR Most Efficient in 2019 and be featured on the [ENERGY STAR Most Efficient 2019 webpage](#), models must be submitted with sound level data that meet the following requirement, per the [ENERGY STAR Most Efficient 2019 Ventilating Fans Criteria](#):

Bathroom and Utility Room Fans must provide a sound level  $\leq 4.0$  sones at 0.25 inches of water gauge external static pressure at high speed.

This data point is optional for ENERGY STAR certification, but is required for models to be recognized as ENERGY STAR Most Efficient in 2019.

To update certified model listings to include sound level data, please work with your certification body.

Please contact [MostEfficient@energystar.gov](mailto:MostEfficient@energystar.gov) with any questions.

Thank you for your continued support of ENERGY STAR.
