

Jennifer Dolin has been with OSRAM SYLVANIA since 2004, where she is the manager of sustainability and environmental affairs. She oversees environmental sustainability issues including lamp and ballast recycling, greenhouse gas emissions reporting, and OSRAM SYLVANIA's Global Care corporate responsibility initiatives. Ms. Dolin spent 10 years with the United States EPA in Washington, DC, first as an early member of the ENERGY STAR® labeling team and then as the creator and manager of the SmartWay program for the Office of Transportation and Air Quality (OTAQ). Ms. Dolin holds a master's degree from Tufts University in Urban and Environmental Policy and Planning, is a LEED® Accredited Professional, Lighting Certified, and IES co-vice chair of the ASHRAE High Performance Buildings SSPC 189.1.
