Families and businesses are saving with the help of ENERGY STAR®

Minnesota is home to more than 338 businesses and organizations participating in the U.S. Environmental Protection Agency’s ENERGY STAR program:

- 39 manufacturers of ENERGY STAR certified products
- 10 companies supporting independent certification of ENERGY STAR products and homes
- 28 companies building ENERGY STAR certified homes

as well as many businesses, school districts, governments, and faith-based groups using ENERGY STAR resources to reduce energy waste in their facilities.

Across the state of Minnesota

- 2,330,283 customers are served by ENERGY STAR utility partners
- 8,723 homes have earned the ENERGY STAR
- 18,057 buildings (nearly 1.5 billion square feet) have been benchmarked using EPA’s ENERGY STAR Portfolio Manager
- 674 buildings have earned the ENERGY STAR for superior efficiency, including 164 schools, 5 hotels, 1 hospital, 237 office buildings, and 4 industrial plants

State Spotlights

Target Corporation earned ENERGY STAR certification for its Minneapolis corporate headquarters in 2016, adding to a cumulative total of more than 1,400 buildings certified, which leads the retail sector.

“For over 100 years, Andersen has built a reputation for environmental stewardship and energy-efficient products. In fact, Andersen has been part of the ENERGY STAR program since it started, and was the first window manufacturer to be named an ENERGY STAR National Window Partner of the Year in 1999.”

– Andersen Corporation

“We are a big fan of ENERGY STAR products – they save our customers money and they help the environment by using less energy. Since 2009, we have sold enough ENERGY STAR certified products that over the product lifetime will help our customers realize $550 million in utility bill savings.”

– Best Buy

For more than 20 years, EPA’s ENERGY STAR program has been America’s resource for saving energy and protecting the environment. Join the millions making a difference at energystar.gov.
