

# NEW YORK

The simple choice for energy efficiency.

April 2017

## Families and businesses are saving with the help of ENERGY STAR®

New York is home to more than **820** businesses and organizations participating in the U.S. Environmental Protection Agency's ENERGY STAR program:

- 70** manufacturers of ENERGY STAR certified products
- 51** companies supporting independent certification of ENERGY STAR products and homes
- 223** companies building ENERGY STAR certified homes, seven of which are committed to building 100% ENERGY STAR

as well as many businesses, school districts, governments, and faith-based groups using ENERGY STAR resources to reduce energy waste in their facilities.

### Across the state of New York

- 7,977,482 customers** are served by ENERGY STAR utility partners
- 35,849 homes** have earned the ENERGY STAR
- 50,365 buildings** (more than 6.5 billion square feet) have been benchmarked using EPA's ENERGY STAR Portfolio Manager
- 1,272 buildings** have earned the ENERGY STAR for superior efficiency, including 320 schools, 15 hotels, 12 hospitals, 533 office buildings, and 3 industrial plants

Empire State Building, New York.  
ENERGY STAR Certified in 2016.

### Recent Partner of the Year Winners

- Bristol-Myers Squibb
- CAMBA Housing Ventures, Inc.
- Canon U.S.A., Inc.
- CodeGreen Solutions
- Colgate-Palmolive Company
- Corning Incorporated
- New York State Energy Research and Development Authority
- TIAA
- Tishman Speyer
- Vornado

### State Spotlights

"The ENERGY STAR Industrial Sector platform has proven to be of significant value to our corporation's energy management program. Not only does ENERGY STAR provide a multitude of programs that provide benchmarking and recognition opportunities, but also the opportunity to share best practices and ideas within your specific industry through the Industrial Focus groups." – **William Perhacs, Associate Director Global Energy Services, Bristol-Myers Squibb**

"Achieving the Environmental Protection Agency's ENERGY STAR Partner of the Year award for four consecutive years has only driven Corning Incorporated's desire to be as energy efficient as possible. Being able to display our achievement of the EPA's most prestigious recognition lets our stakeholders, customers, and employees know we care about the resources we use." – **Patrick Jackson, Director, Global Energy Management, Corning Incorporated.**

*"Each year, New York State homeowners waste hundreds of dollars in energy. Many feel powerless in the face of high energy bills and are unaware of what they can do to control these costs. The Assisted Home Performance with ENERGY STAR program makes it easy and affordable to make the smart investment in a more energy-efficient home, helping income-eligible homeowners across the State lower their energy bills and live more comfortably all year long."* – **New York State Energy Research and Development Authority (NYSERDA)**
