Dear ENERGY STAR® Stakeholder:

This is a reminder that the U.S. Environmental Protection Agency (EPA) released the ENERGY STAR Version 5.0 Commercial Refrigerators and Freezers Discussion Guide on December 22, 2020. Comments are due February 23, 2021 and may be submitted to cfs@energystar.gov.

EPA will host two stakeholder webinars to present details of the Discussion Guide and address stakeholder questions on Tuesday, February 2 and 9, 2021 from 1:00 PM – 3:00 PM EST. If you wish to attend these meetings, please register for Part 1 and Part 2 prior to the start of each session. Note that the two-part webinar series will cover different topics such that the first webinar will cover scope expansion and best practice guidance; and, the second webinar will cover criteria revisions to product categories currently in scope and test methods for categories with no currently applicable energy conservation standards.

Thank you for your continued support of ENERGY STAR.
