Families and businesses are saving with the help of ENERGY STAR®

South Carolina is home to more than 124 businesses and organizations participating in the U.S. Environmental Protection Agency’s ENERGY STAR program:

- 15 manufacturers of ENERGY STAR certified products
- 13 companies supporting independent certification of ENERGY STAR products and homes
- 45 companies building ENERGY STAR certified homes, eight of which are committed to building 100% ENERGY STAR

as well as many businesses, school districts, governments, and faith-based groups using ENERGY STAR resources to reduce energy waste in their facilities.

Across the state of South Carolina

- 933,079 customers are served by ENERGY STAR utility partners
- 14,878 homes have earned the ENERGY STAR
- 4,926 buildings (nearly 300 million square feet) have been benchmarked using EPA’s ENERGY STAR Portfolio Manager
- 363 buildings have earned the ENERGY STAR for superior efficiency, including 107 schools, 5 hotels, 4 hospitals, 41 office buildings, and 1 industrial plant

State Spotlights

Since 2011, Beazer Homes USA, Inc. has seen a 65% reduction in warranty expenses related to water intrusion. Beazer attributes this to building 100% ENERGY STAR certified homes.

The six industrial plants in South Carolina that are ENERGY STAR certified have saved a cumulative $18 million in energy costs. The two Pennsylvania sites that achieved the ENERGY STAR Challenge for Industry saved $166,594 in energy costs.

In 2016, 59 buildings in South Carolina earned ENERGY STAR certification, saving an estimated $6,078,464 in energy costs.

“For nearly two decades Beazer has been qualifying homes through ENERGY STAR programs generating significant savings for our homeowners.” – Allan Merrill, Chief Executive Officer, Beazer Homes USA, Inc.
