

# CONNECTICUT

The simple choice for energy efficiency.

Updated April 2019

## Families and businesses are saving with the help of ENERGY STAR®

Connecticut is home to about **260** businesses and organizations participating in U.S. EPA's ENERGY STAR program:

- 20** manufacturers of ENERGY STAR certified products
- 8** companies supporting independent certification of ENERGY STAR products and homes
- 84** companies building ENERGY STAR certified homes, 6 of which are committed to building 100% ENERGY STAR, as well as many businesses, schools, governments, and faith-based groups using ENERGY STAR to reduce energy waste.

### Across Connecticut

- 1.6 million customers** were served by ENERGY STAR utility partners in 2018
- 3,944 buildings** (almost 251 million square feet) were benchmarked in 2018 using EPA's ENERGY STAR Portfolio Manager
- 12,289 homes** have earned the ENERGY STAR
- 315 buildings** have earned the ENERGY STAR for superior efficiency, including 81 schools, 5 hotels, 3 hospitals, and 91 office buildings.

Travelers Tower, Hartford, CT ENERGY STAR Certified in 2016.

### State Spotlights

*"The VA Connecticut Healthcare System is pleased to be recognized by EPA for managing an energy efficient hospital because we strive to be environmental leaders. The ENERGY STAR helps prove it. We are dedicated to providing our patients with the highest quality care while increasing the health of the communities we serve. Pollution prevention pays. Not just in lower costs, but in better health for us all."* – Angelo Aglieco, Energy Manager, U.S. Department of Veterans Affairs

### Recent ENERGY STAR Award Winner(s)

- The United Illuminating Company, Southern Connecticut Gas, Connecticut Natural Gas, and Eversource Energy

Eversource Energy and AVANGRID Inc. subsidiaries: The United Illuminating Company, Connecticut Natural Gas, and Southern Connecticut Gas implement Energize Connecticut, **the state's energy efficiency initiative**. 2016 accomplishments:

- **Supporting 157 municipalities and boards of education** in Connecticut to actively track the energy performance of 2,900 buildings. Municipalities and schools are encouraged to use a suite of ENERGY STAR tools and resources to pursue a strategic approach to energy management.
- **Bringing their income-eligible residential energy efficiency** offering into the Home Performance with ENERGY STAR (HPwES) program, expanding energy efficiency to a population that is often faced with barriers in taking advantage of these services.
- **Transitioning HPwES contractor participation to an open-market** model where any qualified contractor meeting program standards can participate.
- **Collaborating with the Weatherization Assistance Program to help maximize customers' savings through cost sharing** of the overall project.
